Nothing is Impossible-Ted Osius 2021-10-15 Today Vietnam is one of America's strongest international partners, with a thriving economy and a population that welcomes American visitors. How that relationship was formed is a twenty-year story of daring diplomacy and a careful thawing of tensions between the two countries after a lengthy war that cost nearly 60,000 American and more than two million Vietnamese lives. Ted Osius, former ambassador during the Obama administration, offers a vivid account, starting in the 1990s, of the various forms of diplomacy that made this reconciliation possible. He considers the leaders who put aside past traumas to work on creating a brighter future, including senators John McCain and John Kerry, two Vietnam veterans and ideological opponents who set aside their differences for a greater cause, and Pete Peterson—the former POW who became the first U.S. ambassador to a new Vietnam. Osius also draws upon his own experiences working first-hand with various Vietnamese leaders and traveling the country on bicycle to spotlight the ordinary Vietnamese people who have helped bring about their nation's extraordinary renaissance. With a foreword by former Secretary of State John Kerry, *Nothing Is Impossible* tells an inspiring story of how international diplomacy can create a better world.

The Road Not Taken: Edward Lansdale and the American Tragedy in Vietnam-Max Boot 2018-01-09 Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this “epic and elegant” biography (Wall Street Journal) profoundly recasts our understanding of the Vietnam War. Praised as a “superb scholarly achievement” (Foreign Policy), *The Road Not Taken* confirms Max Boot's role as a “master chronicler” (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908–1987) from historical ignominy to “restore a sense of proportion” to this “political Svengali, or ‘Lawrence of Asia’ ”(The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene's *The Quiet American*, pioneered a “hearts and minds” diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, *The Road Not Taken* is a “judicious and absorbing” (New York Times Book Review) biography of lasting historical consequence.

Neo-nationalism and Universities-John Aubrey Douglass 2021-09-07 "This book offers the first significant examination of the rise of neo-nationalism and its impact on the missions, activities, behaviors, and productivity of leading national universities. This book also presents the first major comparative exploration of the role of national politics and norms in shaping the role of universities in nation-states, and vice versa, and discusses when universities are societal leaders or followers-in promoting a civil society, facilitating talent mobility, in researching challenging social problems, or in reinforcing and supporting an existing social and political order"--

The Origins of the Vietnam War-Fredrik Logevall 2014-01-14 Why did the US make a commitment to an independent South Vietnam? Could a major war have been averted? Fredrik Logevall provides a concise, comprehensive and accessible introduction to the origins of the Vietnam War from the end of the Indochina War in 1954 to the eruption of full-scale war in 1965, and places events against their full international background.

Choosing War-Fredrik Logevall 2001-02-09 "Masterful. . . . Logevall presents a vivid and tragic portrait of the elements of U.S. decision-making on Vietnam from the beginning of the Kennedy administration through the announcement of the American ground war in July 1965. In the process he reveals a troubling picture of top officials in both the Kennedy and Johnson administrations persisting in efforts to boost the fortunes of successive governments of South Vietnam, even while they acknowledged that their chances for success were remote. In addition, he places the decision-making squarely in the international context."—Robert D. Schulzinger, author of *A Time for War: The United States and Vietnam, 1941-1975* "Stunning in its research and highly sophisticated in its analysis, *Choosing War* is far and away the best study we have of Lyndon Johnson's escalation of the conflict in Vietnam."—George C. Herring "In this fine book, Fredrick Logevall offers the first detailed examination of why diplomacy failed to head off the Vietnam War. Grounding himself in documentary research and other sources from several countries, Logevall comes closer than anyone ever has to explaining what happened. His clear writing and deep analysis may well change our understanding of Vietnam as a quagmire."—John Prados, author of *The Hidden History of the Vietnam War* "A rising star among a new generation of historians, Fredrik Logevall has written the most important Vietnam book in years. By explaining the international context of that tragic conflict, *Choosing War* provides startling answers to the question, Why did the war happen? Controversial yet fair, this account challenges the reader to think through John F. Kennedy's and Lydon B. Johnson's individual responsibility for Vietnam. The effect is compelling, unforgettable history."—Timothy Naftali, co-author of "One Hell of a Gamble:" *Khrushchev, Castro, and Kennedy, 1958-1964*

Embers of War-Fredrik Logevall 2012-08-21 WINNER OF THE PULITZER PRIZE ONE OF THE MOST ACCLAIMED WORKS OF HISTORY IN RECENT YEARS Winner of the Francis Parkman Prize from the Society of American Historians • Winner of the American Library in Paris Book Award • Winner of the Council on Foreign Relations Arthur Ross Book Award • Finalist for the Cundill Prize in Historical Literature NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • The Christian Science Monitor • The Globe and Mail Written with the style of a great novelist and the intrigue of a Cold War thriller, *Embers of War* is a landmark work that will forever change your understanding of how and why America went to war in Vietnam. Tapping newly accessible diplomatic archives in several nations, Fredrik Logevall traces the path that led two Western nations to tragically lose their way in the jungles of Southeast Asia. He brings to life the bloodiest battles of France's final years in Indochina—and shows how, from an early point, a succession of American leaders made disastrous policy choices that put America on its own collision course with history. An epic story of wasted opportunities and deadly miscalculations, *Embers of War* delves deep into the historical record to provide hard answers to the unanswered questions surrounding the demise of one Western power in Vietnam and the arrival of another. Eye-opening and compulsively readable, *Embers of War* is a gripping, heralded work that illuminates the hidden history of the French and American experiences in Vietnam. Praise for *Embers of War* “A balanced, deeply researched history of how, as French colonial rule faltered, a succession of American leaders moved step by step down a road toward full-blown war.”—Pulitzer Prize citation “This extraordinary work of modern history combines powerful narrative thrust, deep scholarly authority, and quiet interpretive confidence.”—Francis Parkman Prize citation “A monumental history . . . a widely researched and eloquently written account of how the U.S. came to be involved in Vietnam . . . certainly the most comprehensive review of this period to date.”—The Wall Street Journal “Superb . . . a product of formidable international research.”—The Washington Post

Deliver Us From Evil-Thomas A. Dooley 2018-09-03 The young American who became a living legend to the world tells how as a navy doctor he helped half a million Vietnamese refugees escape from communist terror... This is the true, first-hand narrative of a twenty-seven-year-old Navy Doctor who found himself suddenly ordered to Indo-China, just after the tragic fall of Dien Bien Phu. In a small international compound within the totally Communist-consumed North Viet Nam, he built huge refugee camps to care for the hundreds of thousands of escapees seeking passage to freedom. Through his own ingenuity and that of his shipmates, and with touching humor, he managed to feed, clothe, and treat these leftovers of an eight-year war. Dr. Dooley “processed” over 600,000 refugees down the river and out to sea on small craft, where they were transferred to U.S. Navy ships to be carried to the free areas of Saigon. The “Bac Sy My,” as they called the American doctor, explains how he conquered the barriers of custom, language and hate to become, as the President of Viet Nam said of him, “Beloved by a whole nation.”

On Strategy-Harry G. Summers 2009-02-04 Stunning in its insight, *On Strategy* is required reading not just for everyone who is interested in the Vietnam War, but for anyone who is concerned about the place of the United States on the world stage and how America can, and more importantly cannot, employ its immense military force to help bring peace to an increasingly troubled world. “*On Strategy* is just about the best thing I have read on Vietnam.”—Drew Middleton, *The New York Times* “Perhaps the most trenchant single postmortem to date of our defeat in Vietnam . . . a classic . . . compact, subtle—and surprisingly readable.”—*Newsweek* “At our house, we sleep less easily now that Harry G. Summers Jr., Colonel of Infantry, is no longer defending us. After two wars and 38 years of active duty, Summers has retired from the Army. . . . Every taxpayer should mourn his loss. Colonel Summers is perhaps the most influential thinker of our time: his book *On Strategy* is required reading at the Army and Naval War Colleges.”—Jack Beatty, *Boston Globe* “This investigation of the U.S. army's role in the Vietnam War is widely recognized as the single most useful postmortem on the unpopular war.”—*The Washington Post Book World* “The most detailed exposition of this view—that the U.S. threw away whatever chance for victory it may have had through blunders that must not be repeated—comes from Col. Harry Summers, whose book, *On Strategy*, has become must reading for young officers.”—*Time* “A masterful analysis of the strategy, or lack thereof, in the Vietnam War . . . The best critique of the war I have read and a book every policy maker in Washington should absorb.”—Max Cleland, *Atlanta Journal-Constitution*

A People's History of the United States-Howard Zinn 2003-02-04 Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Hanoi's War-Lien-Hang T. Nguyen 2012-07-15 While most historians of the Vietnam War focus on the origins of U.S. involvement and the Americanization of the conflict, Lien-Hang T. Nguyen examines the international context in which North Vietnamese leaders pursued the war and American intervention ended. This riveting narrative takes the reader from the marshy swamps of the Mekong Delta to the bomb-saturated Red River Delta, from the corridors of power in Hanoi and Saigon to the Nixon White House, and from the peace negotiations in Paris to high-level meetings in Beijing and Moscow, all to reveal that peace never had a chance in Vietnam. Hanoi's War renders transparent the internal workings of America's most elusive enemy during the Cold War and shows that the war fought during the peace negotiations was bloodier and much more wide ranging than it had been previously. Using never-before-seen archival materials from the Vietnam Ministry of Foreign Affairs, as well as materials from other archives around the world, Nguyen explores the politics of war-making and peace-making not only from the North Vietnamese perspective but also from that of South Vietnam, the Soviet Union, China, and the United States, presenting a uniquely international portrait.

Rethinking Homework-Cathy Vatterott 2018-09-25 In this updated edition, Cathy Vatterott examines the role homework has played in the culture of schooling over the years; how such factors as family life, the media, and "homework gap" issues based on shifting demographics have affected the homework controversy; and what recent research as well as common sense tell us about the effects of homework on student learning. She also explores how the current homework debate has been reshaped by forces including the Common Core, a pervasive media and technology presence, the mass hysteria of "achievement culture," and the increasing shift to standards-based and formative assessment. The best way to address the homework controversy is not to eliminate homework. Instead, the author urges educators to replace the old paradigm (characterized by long-standing cultural beliefs, moralistic views, and behaviorist philosophy) with a new paradigm based on the following elements: Designing high-quality homework tasks; Differentiating homework tasks; Deemphasizing grading of homework; Improving homework completion; and Implementing homework support programs. Numerous examples from teachers and schools illustrate the new paradigm in action, and readers will find useful new tools to start them on their own journey. The end product is homework that works—for all students, at all levels.

Cyber War Versus Cyber Realities-Brandon Valeriano 2015 "What Valeriano and Maness provide in this book is an empirically-grounded discussion of the reality of cyber conflict, based on an

analysis of cyber incidents and disputes experienced by international states since 2001. They delineate patterns of cyber conflict to develop a larger theory of cyber war that gets at the processes leading to cyber conflict. They find that, in addition to being a little-used tactic, cyber incidents thus far have been of a rather low-level intensity and with few to no long-term effects. Interestingly, they also find that many cyber incidents are motivated by regional conflict. They argue that restraint is the norm in cyberspace and suggest there is evidence this norm can influence how the tactic is used in the future. In conclusion, the authors lay out a set of policy recommendations for proper defense against cyber threats that is built on restraint and regionalism"--

Counterinsurgency Leadership-Nicholas J Schlosser 2015-04-10 Since the surge in Iraq in 2007, counterinsurgency (COIN) has been at the forefront of military and foreign affairs debates. Although COIN is not a new idea, the ongoing campaigns in Iraq and Afghanistan have brought renewed attention to its theory and practice as top leaders in both the government and the military have considered the most effective strategy for these conflicts. A symposium cosponsored by Marine Corps University and the Marine Corps University Foundation explored the complexities of COIN leadership in Afghanistan, Iraq, and beyond. From that symposium came these papers, which discuss topics such as brigade and regimental command, officer development in the military, and general officer leadership. Featuring leading COIN theorists and practitioners from the military, academic, and private sectors, this volume sheds new light on past and present COIN operations and points the way toward those in the future.

Under Beijing's Shadow-Murray Hiebert 2020-08-15 China's rise and stepped-up involvement in Southeast Asia have prompted a blend of anticipation and unease among its smaller neighbors. The stunning growth of China has yanked up the region's economies, but its militarization of the South China Sea and dam building on the Mekong River has nations wary about Beijing's outsized ambitions. Southeast Asians long felt relatively secure, relying on the United States as a security hedge, but that confidence began to slip after the Trump administration launched a trade war with China and questioned the usefulness of traditional alliances. This compelling book provides a snapshot of ten countries in Southeast Asia by exploring their diverse experiences with China and how this impacts their perceptions of Beijing's actions and its long-term political, economic, military, and "soft power" goals in the region.

The Best and the Brightest-David Halberstam 2002-03-26 David Halberstam's masterpiece, the defining history of the making of the Vietnam tragedy, with a new Foreword by Senator John McCain. "A rich, entertaining, and profound reading experience."—The New York Times Using portraits of America's flawed policy makers and accounts of the forces that drove them, *The Best and the Brightest* reckons magnificently with the most important abiding question of our country's recent history: Why did America become mired in Vietnam, and why did we lose? As the definitive single-volume answer to that question, this enthralling book has never been superseded. It is an American classic. Praise for *The Best and the Brightest* "The most comprehensive saga of how America became involved in Vietnam. . . . It is also the Iliad of the American empire and the Odyssey of this nation's search for its idealistic soul. *The Best and the Brightest* is almost like watching an Alfred Hitchcock thriller."—The Boston Globe "Deeply moving . . . We cannot help but feel the compelling power of this narrative. . . . Dramatic and tragic, a chain of events overwhelming in their force, a distant war embodying illusions and myths, terror and violence, confusions and courage, blindness, pride, and arrogance."—Los Angeles Times "A fascinating tale of folly and self-deception . . . [An] absorbing, detailed, and devastatingly caustic tale of Washington in the days of the Caesars."—The Washington Post Book World "Seductively readable . . . It is a staggeringly ambitious undertaking that is fully matched by Halberstam's performance. . . . This is in all ways an admirable and necessary book."—Newsweek "A story every American should read."—St. Louis Post-Dispatch

In Retrospect-Robert McNamara 2017-09-06 #1 NATIONAL BESTSELLER. The definitive insider's account of American policy making in Vietnam. "Can anyone remember a public official with the courage to confess error and explain where he and his country went wrong? This is what Robert McNamara does in this brave, honest, honorable, and altogether compelling book."—Arthur Schlesinger, Jr. Written twenty years after the end of the Vietnam War, former Secretary of Defense Robert McNamara's controversial memoir answers the lingering questions that surround this disastrous episode in American history. With unprecedented candor and drawing on a wealth of newly declassified documents, McNamara reveals the fatal misassumptions behind our involvement in Vietnam. Keenly observed and dramatically written, *In Retrospect* possesses the urgency and poignancy that mark the very best histories—and the unsparing candor that is the trademark of the greatest personal memoirs. Includes a preface written by McNamara for the paperback edition.

Domestic Constraints on South Korean Foreign Policy-Scott A. Snyder 2018-01-01 These essays support the argument that strong and effective presidential leadership is the most important prerequisite for South Korea to sustain and project its influence abroad. That leadership should be attentive to the need for public consensus and should operate within established legislative mechanisms that ensure public accountability. The underlying structures sustaining South Korea's foreign policy formation are generally sound; the bigger challenge is to manage domestic politics in ways that promote public confidence about the direction and accountability of presidential leadership in foreign policy.

The Responsibility of Intellectuals-Noam Chomsky 2017-11-07 Selected by Newsweek as one of "14 nonfiction books you'll want to read this fall" Fifty years after it first appeared, one of Noam Chomsky's greatest essays will be published for the first time as a timely stand-alone book, with a new preface by the author As a nineteen-year-old undergraduate in 1947, Noam Chomsky was deeply affected by articles about the responsibility of intellectuals written by Dwight Macdonald, an editor of *Partisan Review* and then of *Politics*. Twenty years later, as the Vietnam War was escalating, Chomsky turned to the question himself, noting that "intellectuals are in a position to expose the lies of governments" and to analyze their "often hidden intentions." Originally published in the *New York Review of Books*, Chomsky's essay eviscerated the "hypocritical moralism of the past" (such as when Woodrow Wilson set out to teach Latin Americans "the art of good government") and exposed the shameful policies in Vietnam and the role of intellectuals in justifying it. Also included in this volume is the brilliant "The Responsibility of Intellectuals Redux," written on the tenth anniversary of 9/11, which makes the case for using privilege to challenge the state. As relevant now as it was in 1967, *The Responsibility of Intellectuals* reminds us that "privilege yields opportunity and opportunity confers responsibilities." All of us have choices, even in desperate times.

China's Maritime Disputes in the East and South China Seas-U.S.-China Economic and Security Review Commission 2014-04-18 Today's hearing will cover China's maritime disputes in the East and South China Seas. We'll examine the security, political, legal, and economic drivers of these disputes in our three panels today. The first panel will begin by discussing the broad security situation on the high seas. As China's maritime forces have become more capable over the past decade, Beijing has become more confident in its ability to assert its claims in the disputed areas. Beyond China's "hard" security concerns, however, other domestic, political, and legal elements shape China's policy in the East and South China Seas. Our second panel will consider popular nationalism as one of these elements. It has become a key driver of Chinese foreign policy as personality politics in Beijing has given way to a collective leadership seeking Party legitimacy. We'll conclude with a panel on

how resources and economic drivers shape China's maritime disputes. Security of China's near seas is critical to the unimpeded flow of trade and imported energy resources. Though the natural resources in the East and South China Sea undoubtedly shape the security landscape, there appears to be a debate on the centrality of oil and gas resources to the dispute.

Law Enforcement Intelligence-David L. Carter 2012-06-19 This intelligence guide was prepared in response to requests from law enforcement executives for guidance in intelligence functions in a post-September 11 world. It will help law enforcement agencies develop or enhance their intelligence capacity and enable them to fight terrorism and other crimes while preserving community policing relationships. The world of law enforcement intelligence has changed dramatically since September 11, 2001. State, local, and tribal law enforcement agencies have been tasked with a variety of new responsibilities; intelligence is just one. In addition, the intelligence discipline has evolved significantly in recent years. As these various trends have merged, increasing numbers of American law enforcement agencies have begun to explore, and sometimes embrace, the intelligence function. This guide is intended to help them in this process. The guide is directed primarily toward state, local, and tribal law enforcement agencies of all sizes that need to develop or reinvigorate their intelligence function. Rather than being a manual to teach a person how to be an intelligence analyst, it is directed toward that manager, supervisor, or officer who is assigned to create an intelligence function. It is intended to provide ideas, definitions, concepts, policies, and resources. It is a primera place to start on a new managerial journey. Every law enforcement agency in the United States, regardless of agency size, must have the capacity to understand the implications of information collection, analysis, and intelligence sharing. Each agency must have an organized mechanism to receive and manage intelligence as well as a mechanism to report and share critical information with other law enforcement agencies. In addition, it is essential that law enforcement agencies develop lines of communication and information-sharing protocols with the private sector, particularly those related to the critical infrastructure, as well as with those private entities that are potential targets of terrorists and criminal enterprises. Not every agency has the staff or resources to create a formal intelligence unit, nor is it necessary in smaller agencies. This document will provide common language and processes to develop and employ an intelligence capacity in SLTLE agencies across the United States as well as articulate a uniform understanding of concepts, issues, and terminology for law enforcement intelligence (LEI). While terrorism issues are currently most pervasive in the current discussion of LEI, the principles of intelligence discussed in this document apply beyond terrorism and include organized crime and entrepreneurial crime of all forms. Drug trafficking and the associated crime of money laundering, for example, continue to be a significant challenge for law enforcement. Transnational computer crime, particularly Internet fraud, identity theft cartels, and global black marketeering of stolen and counterfeit goods, are entrepreneurial crime problems that are increasingly being relegated to SLTLE agencies to investigate simply because of the volume of

criminal incidents. Similarly, local law enforcement is being increasingly drawn into human trafficking and illegal immigration enterprises and the often associated crimes related to counterfeiting of official documents, such as passports, visas, driver's licenses, Social Security cards, and credit cards. All require an intelligence capacity for SLTLE, as does the continuation of historical organized crime activities such as auto theft, cargo theft, and virtually any other scheme that can produce profit for an organized criminal entity. To be effective, the law enforcement community must interpret intelligence-related language in a consistent manner. In addition, common standards, policies, and practices will help expedite intelligence sharing while at the same time protecting the privacy of citizens and preserving hard-won community policing relationships.~

Warfare in the Age of Non-State Actors: Implications for the US Army-Michael Brooks 2019-09-13 The annual Combat Studies Institute Military History Symposium provides a forum for the interchange of ideas on historical topics pertinent to the current doctrinal concerns of the United States Army. Furthermore, the Symposium solicits input from a diverse group of military personnel, government historians, civilian academicians, journalists and thinkers in a setting that promotes the exchange of ideas and information. With the support of the US Army Command and General Staff School staff, this year's Symposium was held 11-13 September 2007 at the new Lewis and Clark Center at Fort Leavenworth, Kansas. Fire in the Lake-Frances FitzGerald 2009-05-30 Frances FitzGerald's landmark history of Vietnam and the Vietnam War, "A compassionate and penetrating account of the collision of two societies that remain untranslatable to one another." (New York Times Book Review) This magisterial work, based on Frances FitzGerald's many years of research and travels, takes us inside the history of Vietnam--the traditional, ancestor-worshiping villages, the conflicts between Communists and anti-Communists, Catholics and Buddhists, generals and monks, the disruption created by French colonialism, and America's ill-fated intervention--and reveals the country as seen through Vietnamese eyes. Originally published in 1972, FIRE IN THE LAKE was the first history of Vietnam written by an American, and subsequently won the Pulitzer Prize, the Bancroft Prize, and the National Book Award. With a clarity and insight unrivaled by any author before it or since, Frances FitzGerald illustrates how America utterly and tragically misinterpreted the realities of Vietnam.
