New Essays on Billy Budd alongside Jewish religious-political and political thinkers such as Bertha Pappenheim, Hannah Arendt, Simone Weil, and others. This collection demonstrates convincingly why philosophical accounts of morality, past and present, are unable to explain moral innocence. The book articulates in rich and complex ways the nature of two important moral emotions or 'ways of being' - compassion and remorse. The first section of the book focuses on the nature of moral innocence, while the second section explores the nature of compassion and remorse. The book's jurisprudential chapters explore the problem of how offender remorse is proved in court and the importance of remorse in determining the appropriate punishment for criminal offenders. The legal and psychological perspectives are then examined to elucidate the complex issue of remorse in sentencing. The book is a comprehensive and critical examination of the role of remorse in the criminal justice system.
