DOOR OF HOPE MISSION DOLL: The first Chinese antique doll brand made by Shanghai's child prostitutes in 1901. 2017-07-17 It's a true story about Chinese antique dolls. In 1901, Door Of Hope Shanghai set up by American Cornella Bonnell (1874-1916) was for protecting child prostitutes. In 2017, DOOR OF HOPE RECOVERY PROGRAM fundraising for the poor girls in the mountain areas of China so as to prevent child prostitution, planned by Taiwanese antique doll specialist Tingjia Liang. She says that "The Door of Hope Mission Doll has become a priceless antique, but that has had no impact on the issue of child prostitution, just as it is an insult to the girls who created the dolls a hundred years ago. Upon finding them in the last winter of the twentieth century, I felt that there was a reason that I had found them. Perhaps there was something I could do from them—If I did not do anything, there might not be anyone else who will." 30% of our profits will be donated to funding vocational training for the hard-working and resilient girls of the mountainous areas of China. Because only a girl with skills is able to be independent.

The Power of Hope-Daisaku Ikeda 2021-07-29 Human history has been marked by the great number of people born into conditions of war, violence, oppression and social exclusion. But at the same time, this history has been shaped by the long struggle for human rights and the people who have committed themselves to the practices of solidarity and nonviolence. *The Power of Hope: Thoughts on Peace and Human Rights in the Third Millennium* is a dialogue between two high-profile activists and thinkers who discuss the concrete ways we can shift to a world that prioritises justice and human dignity. Adolfo Pérez Esquivel - Argentinian human rights activist and winner of the 1980 Nobel Peace Prize - played a vital role in resisting military dictatorship and was arrested and tortured under the Argentine militarist government. Daisaku Ikeda is a peacebuilder, Buddhist philosopher, educator, author and poet as well as being the founding president of Soka Gakkai International (SGI), the world's largest Buddhist lay organisation. Their dialogue intertwines their rich personal experiences in the struggle for human rights with wider reflections on how to make the Third Millennium the millennium of peace. The book combines rich accounts of Latin America under the brutality of the 1970s military regimes; insights from the Buddhist faith on the role of meditation for human rights activists; recognition of the crucial role of women in the practice of nonviolence; thoughts on international geopolitics and the legacies of Hiroshima; and discussion of the perilous role of globalisation in the loss of identities and ethical values.

Legal Transplantation in Early Twentieth-Century China-Michael H. K. Ng 2014-05-23 "Practicing law" has a dual meaning in this book. It refers to both the occupational practice of law and the practicing of transplanted laws and institutions to perfect them. The book constitutes the first monographic work on the legal history of Republican Beijing, and provides an in-depth and comprehensive account of the practice of law in the city of Beijing during a period of social transformation. Drawing upon unprecedented research using archived records and other primary materials, it explores the problems encountered by Republican Beijing's legal practitioners, including lawyers, policemen, judges and criminologists, in applying transplanted laws and legal institutions when they were inapplicable to, incompatible with, or inadequate for resolving everyday legal issues. These legal practitioners resolved the mismatch, the author argues, by quite sensibly assimilating certain imperial laws and customs and traditional legal practices into the daily routines of the recently imported legal institutions. Such efforts by indigenous legal practitioners were crucial in, and an integral part of, the making of legal transplantation in Republican Beijing. This work not only makes significant contributions to scholarship on the legal history of modern China, but also offers insights into China's quest for modernization in its first wave of legal globalization. It is thus of great value to legal historians, comparative legal scholars, specialists in Chinese law and China studies, and lawyers and law students with an interest in Chinese legal history.

Hosea: A Textual Commentary-Mayer I. Gruber 2017-07-27 Mayer I. Gruber provides a new commentary on and translation of Hosea. Building upon his work that debunked the myth of sacred prostitution, Gruber now goes on to show that the book of Hosea repeatedly advocates a single standard of marital fidelity for men and women and teaches cheated women to fight back. Gruber employs the latest and most precise findings of lexicography and poetics to solve the difficulties of the text and to determine both how Hosea can be read and what this means. The translation differs from classical and recent renderings in eliminating forms and expressions, which are neither modern English nor ancient Hebrew. Referring to places, events, and material reality of the 9th and 8th centuries BCE, Gruber uncovers the abiding messages of the heretofore obscure book of Hosea. As in previous studies, Gruber employs the insights of behavioral sciences to uncover forgotten meanings of numerous allusions, idioms, similes, and metaphors. Judicious use is made also of textual history, reception history, and personal voice criticism. One of the least biblical books now speaks more clearly to present and future audiences than it did to many previous audiences.

The Complaint; Or, Door of Hope, in a Letter to a Friend. by a Well Wisher to the Gospel-Amicus 2018-04-17 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. Dangerous Pleasures-Gail Hershatter 1997 In the past decade, as prostitution once again has become a recognized feature of Chinese society, it has been incorporated into a larger public discussion about what kind of modernity China should seek and what kind of sex and gender arrangements should characterize that modernity. Prostitutes, like every other non-elite group, did not record their own lives.

Reference Guide to Christian Missionary Societies in China: From the Sixteenth to the Twentieth Century-R. G. Tiedemann 2016-07-01 This comprehensive guide will facilitate scholarly research concerning the history of Christianity in China as well as the wider Sino-Western cultural encounter. It will assist scholars in their search for material on the anthropological, educational, medical, scientific, social, political, and religious dimensions of the missionary presence in China prior to 1950. The guide contains nearly five hundred entries identifying both Roman Catholic and Protestant missionary sending agencies and related religious congregations. Each entry includes the organization's name in English, followed by its Chinese name, country of origin, and denominational affiliation. Special attention has been paid to identifying the many small, lesser-known groups that arrived in China during the early decades of the twentieth century. In addition, a special category of the as yet little-studied indigenous communities of Chinese women has also been included. Multiple indexes enhance the guide's accessibility.

Scepticism and Hope in Twentieth Century Fantasy Literature-Kath Filmer-Davies 1992 Religious discourse has become alien to the secular and skeptical western societies of the twentieth century. There is real discomfort when religious discourse appears either in the popular press or in society. But even in a secular society, there is still a psychological need (one might even use the stronger word will), if not to believe, then at least to hope. Dr. Filmer states this need is met in the literature of fantasy.

Prophecy and Eschatology in the Transatlantic World, 1550–1800-Andrew Crome 2016-09-22 Prophecy and millennial speculation are often seen as having played a key role in early European engagements with the new world, from Columbus's use of the predictions of Joachim of Fiore, to the puritan 'Errand into the Wilderness'. Yet examinations of such ideas have sometimes presumed an overly simplistic application of these beliefs in the lives of those who held to them. This book explores the way in which prophecy and eschatological ideas influenced poets, politicians, theologians, and ordinary people in the Atlantic world from the sixteenth to the late eighteenth century. Chapters cover topics ranging from messianic claimants to the Portuguese crown to popular prophetic almanacs in eighteenth-century New England; from eschatological ideas in the poetry of George Herbert and Anne Bradstreet, to the prophetic speculation surrounding the Evangelical revivals. It highlights the ways in which prophecy and eschatology played a key role in the early modern Atlantic world.

Knock at the Door of Opportunity-Christopher Robert Reed 2014-06-25 Disputing the so-called ghetto studies that depicted the early part of the twentieth century as the nadir of African American society, this thoughtful volume by Christopher Robert Reed investigates black life in turn-of-the-century Chicago, revealing a vibrant community that grew and developed on Chicago's South Side in the early 1900s. Reed also explores the impact of the fifty thousand black southerners who streamed into the city during the Great Migration of 1916-1918, effectively doubling Chicago's African American population. Those already residing in Chicago's black neighborhoods had a lot in common with those who migrated, Reed demonstrates, and the two groups became unified, building a broad community base able to face discrimination and prejudice while contributing to Chicago's growth and development. Reed not only explains how Chicago's African Americans openly competed with white people for jobs, housing and an independent political voice but also examines the structure of the society migrants entered and helped shape. Other topics include South Side housing, black politics and protest, the role of institutionalized religion, the economic aspects of African American life, the push for citizenship rights and political power for African Americans, and the impact of World War I and the race riot of 1919. The first comprehensive exploration of black life in turn-of-the-century Chicago beyond the mold of a ghetto perspective, this revealing work demonstrates how the melding of migrants and residents allowed for the building of a Black Metropolis in the 1920s. 2015 ISHS Superior Achievement Award

Written by a leading historian of China, it surveys more than 650 scholarly works, discussing Chinese women in the context of marriage, family, sexuality, labor, and national modernity. In the process, Hershatter offers keen analytic insights and judgments about the works themselves and the evolution of related academic fields. The result is both a practical bibliographic tool and a thoughtful reflection on how we approach the past.

Divine Domesticities-Hyaeweol Choi 2014-10-29 *Divine Domesticities: Christian Paradoxes in Asia and the Pacific* fills a huge lacuna in the scholarly literature on missionaries in Asia/Pacific and is transnational history at its finest. Co-edited by two eminent scholars, this multidisciplinary volume, an outgrowth of several conferences/seminars, critically examines various encounters between western missionaries and indigenous women in the Pacific/Asia ... Taken as a whole, this is a thought-provoking and an indispensable reference, not only for students of colonialism/imperialism but also for those of us who have an interest in transnational and gender history in general. The chapters are very clearly written, engaging, and remarkably accessible; the stories are compelling and the research is thorough. The illustrations are equally riveting and the bibliography is extremely useful. —Theodore Jun Yoo, History Department, University of Hawai'i The editors of this collection of papers have done an excellent job of creating a coherent set of case studies that address the diverse impacts of missionaries and Christianity on 'domesticity', and therefore on the women and children who were assumed to be the rightful inhabitants of that sphere ... The introduction to the volume is beautifully written and sets up the rest of the volume in a comprehensive way. It explains the book's aim to advance theoretical and methodological issues by exploring the role of missionary encounters in the development of modern domesticities; showing the agency of indigenous women in negotiating both change and continuity; and providing a wide range of case studies to show 'breadth and complexity' and the local and national specificities of engagements with both missionaries and modernity. My view is that all three aims are well and truly fulfilled. —Helen Lee, Head, Sociology and Anthropology, La Trobe University, Melbourne

Enemies of Hope-R. Tallis 2016-04-30 Perceptive, passionate and often controversial, Raymond Tallis's latest debunking of Kulturkritik delves into a host of ethical and philosophical issues central to contemporary thought, raising questions we cannot afford to ignore. After reading *Enemies of Hope*, those minded to misrepresent mankind in ways that are almost routine amongst humanist intellectuals may be inclined to think twice. By clearing away the 'hysterical humanism' of the present century *Enemies of Hope* frees us to start thinking constructively about the way forward for humanity in the next.

Sustainability and Cities-Peter Newman 1999-02 Sustainability and Cities examines the urban aspect of sustainability issues, arguing that cities are a necessary focus for that global agenda. The authors make the case that the essential character of a city's land use results from how it manages its transportation, and that only by reducing our automobile dependence will we be able to successfully accommodate all elements of the sustainability agenda. The book begins with chapters that set forth the notion of sustainability and how it applies to cities and automobile dependence. The authors consider the changing urban economy in the information age, and describe the extent of automobile dependence worldwide. They provide an updated survey of global cities that examines a range of sustainability factors and indicators, and, using a series of case studies, demonstrate how cities around the world are overcoming the problem of automobile dependence. They also examine the connections among transportation and other issues—including water use and cycling, waste management, and greening the urban landscape—and explain how all elements of sustainability can be managed simultaneously. The authors end with a consideration of how professional planners can promote the sustainability agenda, and the ethical base needed to ensure that this critical set of issues is taken seriously in the world's cities. Sustainability and Cities will serve as a source of both learning and inspiration for those seeking to create more sustainable cities, and is an important book for practitioners, researchers, and students in the fields of planning, geography, and public policy.

Competing Kingdoms-Barbara Reeves-Ellington 2009-01-01 Competing Kingdoms rethinks the importance of women and religion within U.S. imperial culture from the early nineteenth century to the mid-twentieth. In an era when the United States was emerging as a world power to challenge the hegemony of European imperial powers, American women missionaries strove to create a new Kingdom of God. They did much to shape a Protestant empire based on American values and institutions. This book examines American women's activism in a broad transnational context. It offers a complex array of engagements with their efforts to provide rich intercultural histories about the global expansion of American culture and American Protestantism. An international and interdisciplinary group of scholars, the contributors bring under-utilized evidence from U.S. and non-U.S. sources to bear on the study of American women missionaries abroad and at home. Focusing on women from several denominations, they build on the insights of postcolonial scholarship to incorporate the agency of the people among whom missionaries lived. They explore how people in China, the Congo Free State, Egypt, India, Japan, Ndebeleland (colonial Rhodesia), Ottoman Bulgaria, and the Philippines perceived, experienced, and negotiated American cultural expansion. They also consider missionary work among people within the United States who were constructed as foreign, including African Americans, Native Americans, and Chinese immigrants. By presenting multiple cultural perspectives, this important collection challenges simplistic notions about missionary cultural imperialism, revealing the complexity of American missionary attitudes toward race and the ways that ideas of domesticity were reworked and appropriated in various settings. It expands the field of U.S. women's history into the international arena, increases understanding of the global spread of American culture, and offers new concepts for analyzing the history of American empire. Hosea / Joel / Amos / Obadiah / Jonah-Lloyd J. Ogilvie 2004-07-28 General editor Lloyd J. Ogilvie brings together a team of skilled and exceptional communicators to blend sound scholarship with life-related illustrations. The design for the Preacher's Commentary gives the reader an overall outline of each book of the Bible. Following the introduction, which reveals the author's approach and salient background on the book, each chapter of the commentary provides the Scripture to be expounded. The New King James Bible has been chosen for the Preacher's Commentary because it combines with integrity the beauty of language, underlying Hebrew and Greek textual basis, and thought-flow of the 1611 King James Version, while replacing obsolete verb forms and other archaisms with their everyday contemporary counterparts for greater readability. Reverence for God is preserved in the capitalization of all pronouns referring to the Father, Son, or Holy Spirit. Readers who are more comfortable with another translation can readily find the parallel passage by means of the chapter and verse reference at the end of each passage being expounded. The paragraphs of exposition combine fresh insights to the Scripture, application, rich illustrative material, and innovative ways of utilizing the vibrant truth for his or her own life and for the challenge of communicating it with vigor and vitality.

Exodus from the Door of No Return-Roy G. Phillips Phd 2008-10-13 After sixty years, Dr. Roy G. Phillips, retired founding campus president at Miami-Dade College, Homestead Campus, returned to his native home in rural Webster Parish outside of Minden, Louisiana. It took him almost forty years to fulfill a dream, a journey that began as a conversation with renowned author Alex Haley culminated with the collection of fascinating stories, and then finished in a poignant book that tells the story of his ancestors in their trajectory from Africa to America. When he retired in December 2001, Phillips turned to writing, piecing together years worth of research. The final product, *Exodus from the Door of No Return: Journey of an American Family* (AuthorHouse) was published in September 2006 and revised in October 2008. Phillips family saga mirrors the lives of what arguably could be the tale of most African Americans. In the book, family is the glue that binds Phillips ancestors from Slavery to Reconstruction, Jim Crow Segregation, the World Wars, the Great Migration of black families out of the South, the tumultuous civil rights period of the sixties, to the present day. Phillips might never have started on the journey of family discovery if it had not been for a chance meeting with Haley, who had come to speak at the University of Michigan. At that time, Haley was in the midst of researching his book *Roots*, and Phillips was completing his doctoral dissertation in urban secondary administration. I spent half of the night talking to him about what to do, he recalls. He said, Go and talk to the old folks in your family. Get their stories. Phillips painstakingly tracked down the descendants of the plantation owners James Germany McDade II who owned his great grandfather and other relatives. Phillips continues to meet and correspond with the McDades in Shreveport and East Texas. He also underwent DNA testing which helped him track both his paternal ancestry to the Mbute people in the Central African Republic and his maternal ancestry to the Mende people in Sierra Leone West Africa.

Restoring the Balance-Ellen S. More 2001-03-16 From about 1850, American women physicians won gradual acceptance from male colleagues and the general public, primarily as caregivers to women and children. By 1920, they represented approximately five percent of the profession. But within a decade, their niche in American medicine--women's medical schools and medical societies, dispensaries for women and children, women's hospitals, and settlement house clinics--had declined. The steady increase of women entering medical schools also halted, a trend not reversed until the 1960s. Yet, as women's traditional niche in the profession disappeared, a vanguard of women doctors slowly opened new paths to professional advancement and public health advocacy. Drawing on rich archival sources and her own extensive interviews with women physicians, Ellen More shows how the Victorian ideal of balance influenced the practice of healing for women doctors in America over the past 150 years. She argues that the history of women practitioners throughout the twentieth century fulfills the expectations constructed within the Victorian culture of professionalism. *Restoring the Balance* demonstrates that women doctors--collectively and individually--sought to balance the distinctive interests and culture of women against the claims of disinterestedness, scientific objectivity, and specialization of modern medical professionalism. That goal, More writes, reaffirmed by each generation, lies at the heart of her central question: what does it mean to be a woman physician?
