Rescuing Sprite A Dog Lovers Story Of Joy And Anguish

Rescuing Sprite·Mark R. Levin 2007-11-06 A radio talk-show host and best-selling author of Men in Black describes his family's relationship with a remarkable rescue dog named Sprite, a beautiful, loving, and gentle animal whose deteriorating health taught the entire family a lesson in friendship, love, joy, and grief.

Rescuing Sprite·Mark R. Levin 2009-10-13 "Rescuing Sprite" is a stunningly intimate look at the love between a family and a dog, one that movingly shows, in Levin's words, that in the end, we humans are the lucky ones. A portion of the proceeds of this book will be donated to animal shelters.

Rescuing Sprite·Mark Reed Levin 2008-04-01 Although known as a constitutional lawyer and nationally syndicated broadcaster, Mark Levin is, first and foremost, a dog lover. In 1998, his family welcomed a Border Collie/Cocker Spaniel named Pepsi into their lives. Six years later, Levin's wife and son persuaded him to adopt a dog from the local shelter, a Spaniel mix with a gentle nature, a beautiful face and soft, huggable fur. But shortly after joining their family, Sprite suddenly collapsed.

The Dogs Who Found Me·Ken Foster 2016-08-01 Now regarded as a classic in dog literature, Ken Foster's memoir chronicles his journey from first-time dog owner to rescuer—and all the lessons and mistakes he made along the way. Bookended by the tragedies of 9/11 and Katrina, Foster finds that dogs open his eyes to the benefits of compassion, selflessness, and the chaotic beauty of living each day in the moment. But more than Foster's own story, readers remember the dogs. Among them are Duque, a Costa Rican stray; Brando, Foster's first adopted dog and a supposed pit bull mix who outgrew his Manhattan studio apartment; Rocco, a clownish red pit bull whose owner mistakenly gives him away to the wrong person; Zephyr, a cheerful Rottweiler mix who awakens Foster by sitting on his chest when his heart stops working; and Sula, the tiny lost pit bull who showed up at Foster's door one day and stayed. Whether bearing witness to national tragedy, grieving the death of a friend, or dealing with his own mortality, Foster finds strength in his dogs, and in the reciprocal nature of rescue.

Scent of the Missing·Susannah Charleson 2010-04-14 A “haunting meditation on trust, hope and love” by a woman who adopts and trains a Golden Retriever puppy to become a search-and-rescue dog (People). In the wake of the Oklahoma City bombing, Susannah Charleson’s attention was caught by a newspaper photograph of a canine handler, his exhausted face buried in the fur of his search-and-rescue dog. Susannah, a dog lover and pilot with search experience herself, was so moved by the image that she decided to volunteer with a local canine team, plunging herself into an astonishing new world. While the team worked long hours for nonexistent pay and often heart-wrenching results, Charleson discovered the joy of working in partnership with a canine friend and the satisfaction of using their combined skills to help her fellow human beings. Once she qualified to train a dog of her own, Charleson adopted Puzzle—a smart, spirited Golden Retriever puppy who exhibited unique aptitudes as a working dog, but was a bit less interested in the role of compliant house pet. Scent of the Missing is the story of Charleson’s adventures with Puzzle as they search for a lost teen; an Alzheimer’s patient wandering in the cold; and signs of the crew amid the debris of the space shuttle Columbia disaster—all while unraveling the mystery of the bond between humans and dogs. “A riveting view of both the human animal bond and the training of search and rescue dogs. All dog lovers and people interested in training service dogs should read this book.” —Temple Grandin, author of Animals Make Us Human

Oogy·Laurence M. Levin 2012 In 2002, Larry Levin and his twelve-year-old sons, Dan and Noah, took their elderly cat to the vet to be put to sleep. Yet what began as one of the family's saddest days took a sharp turn for the better when the oddest-looking dog they had ever seen bounded across the waiting room into their arms. The friendly white puppy was missing an ear and half of his face was covered in scar tissue, but Larry and his boys soon discovered the truth - the puppy had been used as bait in a dogfight and left for dead, and it was only the tireless work of their local veterinary staff that had saved him. The Levins accepted the young pup as one of their own from the moment they met him and from that point on he marked himself indelibly on their lives, healing old wounds and showing the boys, themselves adopted as infants, that unbreakable bonds can be formed in all kinds of families.

The Dog who Loved·Jon Katz 2010-08-19 As Izzy settles down to life on Bedlam Farm, Jon is amazed that all signs of the troubled rescue dog who first arrived have disappeared. More than this, the Border collie demonstrates an uncanny sensitivity to, and tenderness towards, humans who are troubled or ill. Izzy's unusual gift leads Jon off the farm and into new, extraordinary friendships, as they together begin volunteer hospice work. Izzy shows Jon what dogs can do for people at our most desperate times. But the work isn't easy, and Jon is reminded that at times he is needy himself. Enter Lenore, a glossy jet-black Labrador retriever puppy, whose seemingly boundless capacity for love reminds Katz why he'd come to the farm in the first place - and why he'd devoted so much of his life to working with dogs. The Dog who Loved is a moving and inspiring story of love, compassion, and the incredibly rich and complex relationships between dogs and humans. Please note, The Dog who Loved is the UK title for the book published in the US as Izzy and Lenore.

Enslaved by Ducks·Bob Tarte 2004-10-01 The book that Entertainment Weekly called “hilarious,” Publishers Weekly declared “a true
pleasure," Booklist called "heartwarming," and the Dallas Morning News praised as "rich and funny" is now available in paperback. When Bob Tarte bought a house in rural Michigan, he was counting on a tranquil haven. Then Bob married Linda. She wanted a rabbit, which seemed innocuous enough until the bunny chewed through their electrical wiring. And that was just the beginning. Before long, Bob found himself constructing cages, buying feed, clearing duck waste, and spoon-feeding a menagerie of furry and feathery residents. His life of quiet serenity vanished, and he unwittingly became a servant to a relentlessly demanding family. “They dumphounded him, controlled and teased him, took their share of his flesh, stole his heart” (Kirkus Reviews). Whether commiserating with Bob over the fate of those who are slaves to their animals or regarding his story as a cautionary tale about the rigors of animal ownership, readers on both sides of the fence have found Tarte’s story of his chaotic squawking household irresistible—and irresistibly funny.

**Dog Named Leaf**
Allen Anderson 2012-11-06
A New York Times bestselling book! Allen and Linda Anderson adopted a traumatized one-year-old cocker spaniel who had been abandoned. Soon, the troubled dog they named “Leaf” turned their home into a war zone. Although Leaf and Allen were forging a friendship with visits to dog parks and bonding time, Leaf’s emotional issues overwhelmed the couple. Shortly after Leaf’s arrival, Allen, who had spent eight years as a big city police officer and survived so many close calls that Linda called him “Miracle Man,” received a diagnosis from his doctor that made him think his luck had finally run out. Allen had an unruptured brain aneurysm that could be fatal, and the surgery to repair it might leave him debilitated. Having seen his father live for years with the effects of a massive stroke, he dreaded that the worst fate might not be death. What Allen didn’t know is that he and Leaf, like comrades facing the ultimate battle, would be there for each other with the miracle of this man and this dog coming together at exactly the right time.

**Liberty and Tyranny**
Mark R. Levin 2009-03-24
Don’t miss syndicated radio host and author Mark Levin’s #1 New York Times acclaimed and longtime bestselling manifesto for the conservative movement. When nationally syndicated radio host Mark R. Levin’s Liberty and Tyranny appeared in the early months of the Obama presidency, Americans responded by making his clarion call for a new era in conservatism a #1 New York Times bestseller for an astounding twelve weeks. As provocative, well-reasoned, robust, and informed as his on-air commentary, with his love of our country and the legacy of our Founding Fathers reflected on every page, Levin’s galvanizing narrative provides a philosophical, historical, and practical framework for revitalizing the conservative vision and ensuring the preservation of American society. In the face of the modern liberal assault on Constitution-based values, an attack that has resulted in a federal government that is a massive, unaccountable conglomerate, the time for reinforcing the intellectual and practical case for conservatism is now. In a series of powerful essays, Levin lays out how conservatives can counter the tyrannical liberal corrosion that has filtered into every timely issue affecting our daily lives, from the economy to health care, global warming to immigration, and more.

**100 Statements about Rescuing Sprite**
Alice Read 2013-02
In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Rescuing Sprite: A Dog Lover's Story of Joy and Anguish." Don’t say we didn’t warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don’t buy this book if: 1. You don’t have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

**Lessons from Tara**
David Rosenfelt 2015-07-21
“Rosenfelt’s latest work of nonfiction has a slightly misleading title; although Tara, the author’s first dog, takes center stage, other dogs—a handful of the hundreds the author and his wife have taken in over the years—do make some appearances. The book’s theme is pretty straightforward: here are some of the things I’ve learned about myself through my dogs. Grieving after Tara’s death, for example, allowed Rosenfelt to open up a more emotional side of himself; other dogs have shown him how to cope with stress, how to put others ahead of himself, how to exist in a seriously hectic environment (his house is always full of dogs), how to find the small joys in a busy day, how to manage with a lack of sleep, and more”--Booklist.

**Swimming with Piranhas at Feeding Time**
Richard Conniff 2010-06-28
“Hilariously informative...This book will remind you why you always wanted to be a naturalist." —Outside In this thrilling foray into the animal
kingdom, Richard Conniff takes readers on an adventure-packed journey as he courts the most dangerous animals and lives to tell the tale. He lets African wild dogs sniff his neck to test the idea that they are vicious man-eaters, sticks his hand in a fire ant mound and does multiple takes for a pretty camerawoman on a television shoot, and flings chicken carcasses into piranha-infested waters to clock how quickly they disappear—before diving in himself. This collection offers a rare chance to go along on these death-defying treks and see life through the eyes of a bona-fide field naturalist.

**Men in Black** by Mark R. Levin 2006-09-25 "A modern conservative classic. " - Sean Hannity "Men in Black couldn't be more timely or important….a tremendously important and compelling book." - Rush Limbaugh "One of the finest books on the Constitution and the judiciary I've read in a long time….There is no better source for understanding and grasping the seriousness of this issue." - Edwin Meese III "The Supreme Court has broken through the firewalls constructed by the framers to limit judicial power." “America’s founding fathers had a clear and profound vision for what they wanted our federal government to be,” says constitutional scholar Mark R. Levin in his explosive book, Men in Black. "But today, our out-of-control Supreme Court imperiously strikes down laws and imposes new ones to suit its own liberal whims—robbing us of our basic freedoms and the values on which our country was founded." In Men in Black: How the Supreme Court Is Destroying America, Levin exposes countless examples of outrageous Supreme Court abuses, from promoting racism in college admissions, expelling God and religion from the public square, forcing states to confer benefits on illegal aliens, and endorsing economic socialism to upholding partial-birth abortion, restraining political speech, and anointing terrorists with rights. Levin writes: “Barely one hundred justices have served on the United States Supreme Court. They’re unelected, they’re virtually unaccountable, they’re largely unknown to most Americans, and they serve for life...in many ways the justices are more powerful than members of Congress and the president.... As few as five justices can and do dictate economic, cultural, criminal, and security policy for the entire nation.” In Men in Black, you will learn: How the Supreme Court protects virtual child pornography and flag burning as forms of free speech but denies teenagers the right to hear an invocation mentioning God at a high school graduation ceremony because it might be “coercive.” How a former Klansman and virulently anti-Catholic Supreme Court justice inserted the words “wall of separation” between church and state in a 1947 Supreme Court decision—a phrase repeated today by those who claim to stand for civil liberty. How Justice Harry Blackmun, a one-time conservative appointee and the author of Roe v. Wade, was influenced by fan mail much like an entertainer or politician, which helped him to evolve into an ardent activist for gay rights and against the death penalty. How the Supreme Court has dictated that illegal aliens have a constitutional right to attend public schools, and that other immigrants qualify for welfare benefits, tuition assistance, and even civil service jobs.

Amid the frenzied barking and prancing of a house full of Great Danes, one pup was shivering in the corner. Gracie. But when Dan Dye reached her, she struggled to her feet like a clumsy foal, raised her forehead to his, and announced, as clearly as if she had actually spoken the words, You know I’m the one. Now get me outta here! By turns funny, moving, tender, and inspiring, Gracie’s tale is a treat for every dog lover. There is Gracie’s first determination to prove to her stepisters, Dottie the Dalmation and Sarah the Black Lab, that she’s one of the girls. Courage. Compassion. Kindness. Soul. Tenacity. And joy, above all, joy. These qualities Gracie possessed in abundance, and shared with everyone, human or canine, who had the good fortune to cross her path. “It’s funny how the smallest things can change a life. Gracie was that thing. If you’re short on inspiration, read Amazing Gracie.” —Chicago Tribune “Tickles the funny bone and touches the heart.” —St. Louis Post-Dispatch

**The Story of Joy** by Adam Potkay 2011-03-03 Joy is an experience of reunion or fulfilment, of desire at least temporarily laid to rest, of a good thing that comes to pass or seems sure to happen soon. In this wide-ranging and highly original book Adam Potkay explores the concept of joy, distinguishing it from related concepts such as happiness and ecstasy. He goes on to trace the literary and intellectual
history of joy in the Western tradition, from Aristotle, the Bible and Provençal troubadours through contemporary culture, centring on
British and German works from the Reformation through Romanticism. Describing the complex interconnections between literary art,
ethics, and religion, Potkay offers fresh readings of Spenser, Shakespeare, Fielding, Schiller, English Romantic poets, Wilde and Yeats.
Winner of the 2009 Harry Levin prize, The Story of Joy will be of special interest to scholars of the Renaissance to the late Romantic
period, but will also appeal to readers interested in the changing perceptions of joy over time.

presents a beautifully detailed account of George Washington’s historic crossing of the Delaware River and the decisive Battle of
Trenton, with a foreword by his son, #1 New York Times bestselling author and radio host Mark R. Levin. With the warm-hearted
patriotism and passion he brought to his beautiful volume Abraham Lincoln’s Gettysburg Address Illustrated, Jack E. Levin illuminates a
profound turning point of the American Revolution: the decisive Battle of Trenton and its prelude—General George Washington leading
his broken and ailing troops in a fleet of small wooden boats across the ice-encased Delaware River. While one iconic nineteenth-century
painting made the crossing a familiar image, the significance of the against-all-odds victory put into motion on Christmas night, 1776,
cannot be told enough. Jack Levin brings to light several vital perspectives, and draws his text from General Washington’s letter to the
Continental Congress to describe the amazing account of the unlikely defeat of the Hessian army at Trenton. As a father, Jack Levin
inspired his sons—including Mark Levin, and Douglas, and Robert—with his love for America. Around the family table, he would share
the facts and events of the nation’s founding, spark lively debates, and pass along his extensive knowledge and his deep and abiding
patriotism. Featuring Revolution-era artwork, portraiture, and maps, George Washington: The Crossing imparts the same vivid, intimate
telling, that of a father to his sons—the kind of history lesson that lives in the heart forever.

Dog Is My Co-Pilot-Bark Editors 2009-02-04 Dogs have been our muses, our mentors, and our playful and noble co-pilots. They’ve had
a profound influence on us as healers and spiritual guides, and also as co-workers, helping to guide, hunt, herd, search, and rescue. Our
bond with dogs is deep and unbreakable, and there’s no better source a reader can turn to for a richer understanding of that complex
and wonderful relationship than The Bark. The Bark began as a newsletter in Berkeley, California, that advocated for an off-leash area
where dogs could cavort and play. Within a few years it had become a full-fledged, award-winning glossy magazine that published work
by some of the best writers in America today. And as it grew, the magazine embraced a much larger canvas: to cover the emerging
phenomenon of “dog culture” that has been developing over the past decade, as dogs have moved out of the backyard and into our
homes, communities, and, indeed, the very center of our lives. As editor Claudia Kawczynska writes, “The implications of integrating
another species into society’s daily fabric go well beyond how we nurture our dogs. It calls for a revamping of the standard
etiquette—respecting the concerns and interests of society at large. This new relationship, along with an appreciation for our rich and
unbound future, comprises what we call dog culture. This is what The Bark set out to chronicle.” Dog Is My Co-Pilot is an anthology of
essays, short stories, and expert commentaries that explores every aspect of our life with dogs. Fifty percent of the material here has
never been published before. The book is divided into four sections: Beginnings explores that first meeting, “the initial murmurings when
a dog-human relationship is formed.” Pack investigates the theme of “togetherness” and pays tribute to the dynamic of multiple
personalities in the canine-human relationship. Lessons examines what dogs teach us, from love to enlightenment. The final section,
Passages, reflects on the themes of true friendship, transformation, and loss. Included are pieces by Lynda Barry, Rick Bass, Maeve
Brennan, Margaret Cho, Carolyn Chute, Alice Elliott Dark, Lama Surya Das, Pam Houston, Erica Jong, Tom Junod, Caroline Knapp,
Donald McCaig, Nasdijj, Ann Patchett, Michael Paterniti, Charles Siebert, Alexandra Styron, Elizabeth Marshall Thomas, and Alice
Walker. In selections that are humorous, poignant, truthful, sometimes surprising, and frequently uplifting, Dog Is My Co-Pilot embraces
the full experience of the world’s oldest friendship. For people who love great writing and, yes, great dogs, it’s a book to be both shared
and treasured.

The Dogs Of Bedlam Farm-Jon Katz 2005 The author recounts his experiences over the course of a winter spent with his three border
collies in an aging farmhouse with four decrepit barns, as he made new discoveries about the relationship between dogs and humans.

Rex and the City-Lee Harrington 2014-12-02 “Hands-down the best human-with-dog memoir you will ever read!” —Bark Magazine In
this rich, humorous and insightful memoir, critically-acclaimed author Lee Harrington shares her story of love, loss, dysfunctional
relationships, and the shelter dog who put things right. In 1997, New York City hipsters Lee and Ed were at a crossroads. Money was
tight, their careers were floundering, their apartment was tiny, and their relationship, frankly, was dysfunctional. Then, on a fateful day
in August, they decided on impulse to visit a nearby animal shelter, just to “look at” dogs. In a split-second decision that would change
their lives, they brought home Wallace. They quickly realized that this spaniel mix was more than they could handle—he was aggressive,
fearful of humans, and seemingly untrainable. Faced with overwhelming new responsibilities, the couple bickered constantly, worried
incessantly, and disagreed on nearly every aspect of how to handle the dog. But the one thing they could agree on was that they loved
Wallace. And slowly but surely, this love helped transform both the dog and their relationship. And thus, by rescuing an abused spaniel,
they ended up rescuing themselves. Funny and heartfelt, this memoir chronicles a couple’s changing outlook on their relationship, on
their city, and on life through Wallace. Rex and the City will resonate with everyone who has ever loved their four-legged friend. “A
sweet and exquisite story . . . that should appeal to urban dog lovers and New Yorkers.” —Publishers Weekly (starred review)

**Thunder Dog** - Michael Hingson 2012-08-06 Faith. Trust. Triumph. “I’m sorry,” the doctor said. “He is permanently and totally blind. There is nothing we can do for him.” George and Sarah Hingson looked at each other, devastated. Their six-month-old, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. “My best suggestion is that you send him to a home for the blind,” the doctor continued. “He will never be able to do anything for himself.” Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy’s name was Roselle. On September 11, 2001, she saved Michael’s life. This is Roselle’s story too. —From the Introduction Every moment in Michael Hingson’s and Roselle’s lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center’s north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their lives to each other. Michael couldn’t see a thing, but he could hear the sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle’s judgment and not to panic. They were a team. Thunder Dog is a story that will forever change your spirit and your perspective. It illuminates Hingson’s lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.

**How Stella Learned to Talk** - Christina Hunger 2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn’t take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn’t they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word “outside” when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.

**Ameritopia** - Mark R. Levin 2012-01-17 In his acclaimed #1 New York Times bestseller, Mark R. Levin explores the psychology, motivations, and history of the utopian movement, its architects—the Founding Fathers, and its modern-day disciples—and how the individual and American society are being devoured by it. Levin asks, what is this utopian force that both allures a free people and destroys them? Levin digs deep into the past and draws astonishingly relevant parallels to contemporary America from Plato’s Republic, Thomas More’s Utopia, Thomas Hobbes’s Leviathan, and Karl Marx’s Communist Manifesto, as well as from the critical works of John Locke, Charles Montesquieu, Alexis de Tocqueville, and other philosophical pioneers who brilliantly diagnosed the nature of man and government. As Levin meticulously pursues his subject, the reader joins him in an enlightening and compelling journey. And in the end, Levin’s message is clear: the American republic is in great peril. The people must now choose between utopianism or liberty. President Ronald Reagan warned, “freedom is never more than one generation away from extinction.” Levin agrees, and with Ameritopia, delivers another modern political classic, an indispensable guide for America in our time and in the future.

Unfreedom of the Press-Mark R. Levin 2020-08-11 Six-time New York Times bestselling author, FOX News star, and radio host Mark R. Levin “trounces the news media” (The Washington Times) in this timely and groundbreaking book demonstrating how the great tradition of American free press has degenerated into a standardless profession that has squandered the faith and trust of the public. Unfreedom of the Press is not just another book about the press. In “Levin’s finest work” (Breitbart), he shows how those entrusted with news reporting today are destroying freedom of the press from within—not through actions of government officials, but with its own abandonment of reportorial integrity and objective journalism. With the depth of historical background for which his books are renowned, Levin takes you on a journey through the early American patriot press, which proudly promoted the principles set forth in the Declaration of Independence and the Constitution. This is followed by the early decades of the Republic during which newspapers around the young country were open and transparent about their fierce allegiance to one political party or another. It was only at the start of the Progressive Era and the 20th century that the supposed “objectivity of the press” first surfaced, leaving us where we are today: with a partisan party-press overwhelmingly aligned with a political ideology but hypocritically engaged in a massive untruth as to its real nature.

Rediscovering Americanism-Mark R. Levin 2017-06-27 From #1 New York Times bestselling author and radio host Mark R. Levin comes a searing plea for a return to America’s most sacred values. In Rediscovering Americanism, Mark R. Levin revisits the founders’ warnings about the perils of overreach by the federal government and concludes that the men who created our country would be outraged and disappointed to see where we've ended up. Levin returns to the impassioned question he’s explored in each of his bestselling books: How do we save our exceptional country? Because our values are in such a precarious state, he argues that a restoration to the essential truths on which our country was founded has never been more urgent. Understanding these principles, in Levin’s words, can “serve as the antidote to tyrannical regimes and governments.” Rediscovering Americanism is not an exercise in nostalgia, but an appeal to his fellow citizens to reverse course. This essential book brings Levin’s celebrated, sophisticated analysis to the troubling question of America’s future, and reminds us what we must restore for the sake of our children and our children’s children.
