**Asian American Women and Men**-Yen Le Espiritu 2008 Labor, laws, and love. Yen Le Espiritu explores how racist and gendered labor conditions and immigration laws have affected relations between and among Asian American women and men. *Asian American Men and Women* documents how the historical and contemporary oppression of Asians in the United States has (re)structured the balance of power between Asian American women and men and shaped their struggles to create and maintain social institutions and systems of meaning. Espiritu emphasizes how race, gender, and class, as categories of difference, do not parallel but instead intersect and confirm one another.

**Asian American Women and Men**-Yen Le Espiritu 1997 What is the "Asian American experience"? What role does gender play within that experience? How do race and economics factor in? *Asian American Women and Men* answers these questions and examines how Asian American culture is shaped by a variety of forces. This groundbreaking volume in the new Gender lens series is among the first to explore the Asian experience from a gendered perspective. Author Yen Le Espiritu documents how the historical and contemporary oppression of Asian Americans has structured gender relationships among them and has contributed to the creation of social institutions and systems of meaning. In so doing, she illustrates how race, class, and gender do not merely run parallel to each another, but rather intersect and confirm one another. Some of the topics discussed include Asian Americans and immigration, labor recruitment, education, relationships, and stereotypes. *Asian American Women and Men* has an exceptionally broad audience including students and professionals in gender studies, Asian American studies, race and ethnicity studies, sociology, political science, anthropology, and American studies.

**The Loneliest Americans**-Jay Caspian Kang 2021-10-12 A riveting blend of family history and original reportage that explores—and reimagines—Asian American identity in a Black and white world “A smart, vulnerable, and incisive exploration of what it means for this brilliant and honest writer—a child of Korean immigrants—to assimilate and aspire while being critical of his membership in his community of origin, in his political tribe, and in America.”—Min Jin Lee, author of *Pachinko* In 1965, a new immigration law lifted a century of restrictions against Asian immigrants to the United States. Nobody, including the lawmakers who passed the bill, expected it to transform the country’s demographics. But over the next four decades, millions arrived, including Jay Caspian Kang’s parents, grandparents, aunts, and uncles. They came with almost no understanding of their new home, much less the history of “Asian America” that was supposed to define them. *The Loneliest Americans* is the unforgettable story of Kang and his family as they move from a housing project in Cambridge to an idyllic college town in the South and eventually to the West Coast. Their story unfolds against the backdrop of a rapidly expanding Asian America, as millions more immigrants, many of them working-class or undocumented, stream into the country. At the same time, upwardly mobile urban professionals have struggled to reconcile their parents’ assimilationist goals with membership in a multicultural elite—all while trying to carve out a new kind of belonging for their own children, who are neither white nor truly “people of color.” Kang recognizes this existential loneliness in himself and in other Asian Americans who try to locate themselves in the country’s racial binary. There are the businessmen turning Flushing into a center of immigrant wealth; the casualties of the Los Angeles riots; the impoverished parents in New York City who believe that admission to the city’s exam schools is the only way out; the men’s rights activists on Reddit ranting about intermarriage; and the handful of protesters who show up at Black Lives Matter rallies holding “Yellow Peril Supports Black Power” signs. Kang’s exquisitely crafted book brings these lonely parallel climbers together amid a wave of anti-Asian violence. In response, he calls for a new form of immigrant solidarity—one rooted not in bubble tea and elite college admissions but in the struggles of refugees and the working class.

**Making and Remaking Asian America**- 1993 This is the first comprehensive study of how U. S. immigration policies have shaped—demographically, economically, and socially—the six largest Asian American communities.

**Asian/Pacific Islander American Women**-Shirley Hune 2003-08-01 Clarence Thomas is one of the most vilified public figures of our day. The paperback edition includes a provocative new Afterword by the author bringing the book up to date by assessing Justice Thomas's performance, and the reaction to his decisions, during the last five years.

**The Company We Keep**-Grace Kao 2019-10-24 With hate crimes on the rise and social movements like Black Lives Matter bringing increased attention to the issue of police brutality, the American public continues to be divided by issues of race. How do adolescents and young adults form friendships and romantic relationships that bridge the racial divide? In *The Company We Keep*, sociologists Grace Kao, Kara Joyner, and Kelly Stamper Balistreri examine how race, gender, socioeconomic status, and other factors affect the formation of interracial friendships and romantic relationships among youth. They highlight two factors that increase the likelihood of interracial romantic relationships in young adulthood: attending a diverse school and having an interracial friendship or romance in adolescence. While research on interracial social ties has often focused on whites and blacks, Hispanics are the largest minority group and Asian Americans are the fastest growing racial group in the United States. *The Company We Keep* examines friendships and romantic relationships among blacks, whites, Hispanics, and Asian Americans to better understand the full spectrum of contemporary race relations. Using data from the National Longitudinal Study of Adolescent to Adult Health, the authors explore the social ties of more than 15,000 individuals from their first survey responses as middle and high school students in the mid-1990s through young adulthood nearly fifteen years later. They find that while approval for interracial marriages has increased and is nearly universal among young people, interracial friendships and romantic relationships remain relatively rare, especially for whites and blacks. Black women are particularly disadvantaged in forming interracial romantic relationships, while Asian men are disadvantaged in the formation of any romantic relationships, both as adolescents and as young adults. They also find that people in same-sex romantic relationships are more likely to have partners from a different racial group than are people in different-sex relationships. The authors pay close attention to how the formation of interracial friendships and romantic relationships depends on opportunities for interracial contact. They find that the number of students choosing different-race friends and romantic partners is greater in schools that are more racially diverse, indicating that school segregation has a profound impact on young people's social ties. Kao, Joyner, and Balistreri analyze the ways school diversity and adolescent interracial contact intersect to lay the groundwork for interracial relationships in young adulthood. *The Company We Keep* provides compelling insights and hope for the future of living and loving across racial divides.

**Asian American Psychology**-Nita Tewari 2009 This is the first textbook written to welcome those who are new to Asian American psychology. Concepts and theories come to life by relating the material to everyday experiences and by including activities, discussion questions, exercises, clinical case studies, and internet resources. Contributions from the leading experts and emerging scholars and practitioners in the field - the majority of whom have also taught Asian American psychology - feature current perspectives and key findings from the psychological literature. The book opens with the cornerstones of Asian American psychology, including Asian American history and research methods. Part 2 addresses how Asian Americans balance multiple worlds with topics such as racial identity, acculturation, and religion. Part 3 explores the psychological experiences of Asian Americans through the lens of gender and sexual orientation and their influence on relationships. Part 4 discusses the emerging experiences of Asian Americans, including

adoptees, parachute kids, and multiracial Asian Americans. Part 5 focuses on social and life issues facing Asian Americans such as racism, academic and career development. The text concludes with an examination of the physical and psychological well-being of Asian Americans and avenues for coping and healing. This ground-breaking volume is intended as an undergraduate/beginning graduate level introductory textbook on Asian American psychology taught in departments of psychology, Asian American and/or ethnic studies, counseling, sociology, and other social sciences. In addition, the clinical cases will also appeal to clinicians and other mental health workers committed to learning about Asian Americans.

**Dragon Ladies**-Sonia Shah 1997 'Groundbreaking....Dragon Ladies explores the emergence of a distinct Asian American feminist movement through the rich perspectives of well-known Asian American activists, writers, and artists who analyze personal experiences through a political lens.' Ms. Magazine This book showcases the growing politicization of Asian American women and their emerging feminist movement. These prominent writers, artists, and activists draw on a wealth of personal experience and political analysis to address issues of immigration, work, health, domestic violence, sexuality, and the media. **Asian American Studies Now**-Jean Yu-Wen Shen Wu 2010-03-08 Asian American Studies Now truly represents the enormous changes occurring in Asian American communities and the world, changes that require a reconsideration of how the interdisciplinary field of Asian American studies is defined and taught. This comprehensive anthology, arranged in four parts and featuring a stellar group of contributors, summarizes and defines the current shape of this rapidly changing field, addressing topics such as transnationalism, U.S. imperialism, multiracial identity, racism, immigration, citizenship, social justice, and pedagogy. Jean Yu-wen Shen Wu and Thomas C. Chen have selected essays for the significance of their contribution to the field and their clarity, brevity, and accessibility to readers with little to no prior knowledge of Asian American studies. Featuring both reprints of seminal articles and groundbreaking texts, as well as bold new scholarship, Asian American Studies Now addresses the new circumstances, new communities, and new concerns that are reconstituting Asian America.

**Asian American Women**-Lora Jo Foo 2002 Asian American Women: Issues, Concerns, and Responsive Human and Civil Rights Advocacy reveals the struggles of Asian American women at the bottom of the socio-economic ladder where hunger, illness, homelessness, sweatshop labor, exposure to hazardous chemicals and even involuntary servitude are everyday realities. Asian American women of all socio-economic classes suffer from domestic violence whose root causes stem from the particular forms of patriarchy that

exist in Asian cultures. Their health and lives are endangered due to prevalent but wrong stereotypes about Asian women. The model minority myth hides the appalling level of human and civil rights violations against Asian American women. The lack of research or the lumping together of the over 24 subgroups of Asian Americans into a homogeneous whole misleads the public as to the extent of injustices inflicted on Asian American women. The book captures their suffering and also the fighting spirit of Asian American women who have waged social and economic justice campaigns and founded organizations to right the wrongs against them. The book is a call to action to Asian Americans, policy makers, civil rights organizations and the philanthropic community to support Asian American women in their struggles to advance their social justice agenda.

**Is Lighter Better?**-Joanne L. Rondilla 2007-02-23 Colorism is defined as "discriminatory treatment of individuals falling within the same 'racial' group on the basis of skin color." That is, some people, particularly women, are treated better or worse on account of the color of their skin relative to other people who share their same racial category. Colorism affects Asian Americans from many different backgrounds and who live in all different parts of the United States. *Is Lighter Better?* discusses this often-overlooked topic. Rondilla and Spickard ask important questions like: What are the colorism issues that operate in Asian American communities? Are they the same issues for all sorts of Asian Americans—for women and for men, for immigrants and the American born, for Chinese, Filipinos, Koreans, Vietnamese, and all the other sorts of Asian Americans?

**Asian Women in Corporate America**-Sambhavi Lakshminarayanan 2021

**Straitjacket Sexualities**-Celine Shimizu 2012-05-09 Depictions of Asian American men as effeminate or asexual pervade popular movies. Hollywood has made clear that Asian American men lack the qualities inherent to the heroic heterosexual male. This restricting, circumscribed vision of masculinity—a straitjacketing, according to author Celine Parreñas Shimizu—aggravates Asian American male sexual problems both on and off screen. *Straitjacket Sexualities: Unbinding Asian American Manhoods in the Movies* looks to cinematic history to reveal the dynamic ways Asian American men, from Bruce Lee to Long Duk Dong, create and claim a variety of masculinities. Representations of love, romance, desire, and lovemaking show how Asian American men fashion manhoods that negotiate the dynamics of self and other, expanding our ideas of sexuality. The unique ways in which Asian American men express intimacy is powerfully represented onscreen, offering distinct portraits of individuals struggling with group identities. Rejecting "macho" men, these movies stake Asian American manhood on the notion of caring for, rather than dominating, others. *Straitjacket Sexualities* identifies a number of moments in the movies wherein masculinity is figured anew. By looking at intimate relations on screen, power as sexual prowess and

brute masculinity is redefined, giving primacy to the diverse ways Asian American men experience complex, ambiguous, and ambivalent genders and sexualities.

**Handbook of Asian American Psychology**-Frederick T. L. Leong 2006-07-12 The Second Edition of the Handbook of Asian American Psychology fills a fundamental gap in the Asian American literature by addressing the full spectrum of methodological, substantive, and theoretical areas related to Asian American Psychology. This new edition provides important scholarly contributions by a new generation of researchers that address the shifts in contemporary issues for Asians and Asian Americans in the U.S.

**Breaking the Bamboo Ceiling**-Jane Hyun 2009-10-06 The popular media often portrays Asian Americans as highly educated and successful individuals—the "Model Minority." As the ethnic minority with the largest percentage of college graduates, many Asian Americans do enter the professional workforce. However, many of them seem to stall in their careers and never make it to the corner offices. Leading executive coach Jane Hyun explores how traditional Asian values can be at odds with Western corporate culture. By using anecdotes, case studies, and exercises, Hyun offers practical solutions for resolving misunderstandings and overcoming challenges in an increasingly multicultural workplace. This timely book explains how companies will benefit from discovering and supporting the talents of their Asian employees and shows Asians how to leverage their strengths to break through the bamboo ceiling.

**Minor Feelings**-Cathy Park Hong 2020-03-05 WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD FOR AUTOBIOGRAPHY 2021 FINALIST FOR THE PULITZER PRIZE FOR GENERAL NON-FICTION 2021 A New York Times Top Book of 2020 Chosen as a Guardian Book of 2020 A BBC Culture Best Books of 2020 Nominated for Good Reads Books of 2020 One of Time's Must-Read Books of 2020 'Unputdownable ... Hong's razor-sharp, provocative prose will linger long after you put Minor Feelings down' - AnOther, Books You Should Read This Year 'A fearless work of creative non-fiction about racism in cultural pursuits by an award-winning poet and essayist' - Asia House 'Brilliant, penetrating and unforgettable, Minor Feelings is what was missing on our shelf of classics ... To read this book is to become more human' - Claudia Rankine author of Citizen 'Hong says the book was 'a dare to herself', and she makes good on it: by writing into the heart of her own discomfort, she emerges with a reckoning destined to be a classic' - Maggie Nelson, author of The Argonauts What happens when an immigrant believes the lies they're told about their own racial identity? For Cathy Park Hong, they experience the shame and difficulty of "minor feelings". The daughter of Korean immigrants, Cathy Park Hong grew up in America steeped in shame, suspicion, and melancholy. She would later understand that these "minor feelings" occur when American optimism contradicts your own reality. With sly humour and a poet's searching mind, Hong uses her own story as a portal into a deeper

examination of racial consciousness. This intimate and devastating book traces her relationship to the English language, to shame and depression, to poetry and artmaking, and to family and female friendship. A radically honest work of art, *Minor Feelings* forms a portrait of one Asian American psyche - and of a writer's search to both uncover and speak the truth.

**The Scar of Race**-Paul M. Sniderman 2009-06-30 What, precisely, is the clash over race in the 1990s, and does it support the charge of a new racism? Here is a brilliant articulation of what has happened, of how racial issues have become entangled with politics--the process of negotiating who gets what through government action. We now have to understand and cope with a politics of race.

**Keywords for Asian American Studies**-Cathy J. Schlund-Vials 2015-05-08 Introduces key terms, research frameworks, debates, and histories for Asian American Studies Born out of the Civil Rights and Third World Liberation movements of the 1960s and 1970s, Asian American Studies has grown significantly over the past four decades, both as a distinct field of inquiry and as a potent site of critique. Characterized by transnational, trans-Pacific, and trans-hemispheric considerations of race, ethnicity, migration, immigration, gender, sexuality, and class, this multidisciplinary field engages with a set of concepts profoundly shaped by past and present histories of racialization and social formation. The keywords included in this collection are central to social sciences, humanities, and cultural studies and reflect the ways in which Asian American Studies has transformed scholarly discourses, research agendas, and pedagogical frameworks. Spanning multiple histories, numerous migrations, and diverse populations, Keywords for Asian American Studies reconsiders and recalibrates the ever-shifting borders of Asian American studies as a distinctly interdisciplinary field. Visit [keywords.nyupress.org](http://keywords.nyupress.org) for online essays, teaching resources, and more.

**Bengali Harlem and the Lost Histories of South Asian America**-Vivek Bald 2013-01-07 Nineteenth-century Muslim peddlers arrived at Ellis Island, bags heavy with embroidered silks from their villages in Bengal. Demand for “Oriental goods” took these migrants on a curious path, from New Jersey’s boardwalks into the segregated South. Bald’s history reveals cross-racial affinities below the surface of early twentieth-century America.

**Dataclysm**-Christian Rudder 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don’t need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we’ve relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook “likes” can predict, with surprising accuracy, a person’s sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America’s most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don’t think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the

narrative of our time.

**Asian Americans**-Laura Uba 2003-04-07 This widely adopted text synthesizes an extensive body of research on Asian American personality development, identity, and mental health. Uba focuses on how ethnocultural factors interact with minority group status to shape the experiences of members of diverse Asian American groups. Cultural values and norms shared by many Asian Americans are examined and common sources of stress described, including racial discrimination and immigrant and refugee experiences. Rates of mental health problems in Asian American communities are reviewed, as are predictors and manifestations of specific disorders. The volume also explores patterns in usage of available mental health services and considers ways that service delivery models might be adapted to better meet the needs of Asian American clients.

**The Life of Michelangelo**-David Hemsoll 2018-04-03 The fame and influence of Michelangelo Buonarroti (1475-1564) were as immediate as they were unprecedented. It is not surprising, therefore, that he was the only living artist Giorgio Vasari included in the first edition of *Lives of the Most Excellent Painters, Sculptors and Architects*, published in 1550. Revised and expanded in 1568, Vasari's monumental work comprises more than two hundred biographies; for centuries it has been recognized as a seminal text in art history and one of the most important sources on the Italian Renaissance. Vasari's biography of Michelangelo, the longest in his *Lives*, presents Michelangelo's oeuvre as the culminating achievement of Renaissance painting, sculpture, and architecture. He tells the grand story of the artist's expansive career, profiling his working habits; describing the creation of countless masterpieces, from the David to the Sistine Chapel ceiling; and illuminating his relationships with popes and other illustrious patrons. A lifelong friend, Vasari also quotes generously from the correspondence between the two men; the narrative is further enhanced by an abundance of colorful anecdotes. The volume's forty-two illustrations convey the range and richness of Michelangelo's art. An introduction by the scholar David Hemsoll traces the textual development of Vasari's *Lives* and situates his biography of Michelangelo in the broader context of Renaissance art history.

**Eating Identities**-Wenying Xu 2007-11-13 The French epicure and gastronome Brillat-Savarin declared, "Tell me what you eat, and I will tell you who you are." Wenying Xu infuses this notion with cultural-political energy by extending it to an ethnic group known for its cuisines: Asian Americans. She begins with the general argument that eating is a means of becoming—not simply in the sense of nourishment but more importantly of what we choose to eat, what we can afford to eat, what we secretly crave but are ashamed to eat in front of others, and how we eat. Food, as the most significant medium of traffic between the inside and outside of our bodies, organizes, signifies, and legitimates our sense of self and distinguishes us from others, who practice different foodways. Narrowing her scope, Xu

reveals how cooking, eating, and food fashion Asian American identities in terms of race/ethnicity, gender, class, diaspora, and sexuality. She provides lucid and informed interpretations of seven Asian American writers (John Okada, Joy Kogawa, Frank Chin, Li-Young Lee, David Wong Louie, Mei Ng, and Monique Truong) and places these identity issues in the fascinating spaces of food, hunger, consumption, appetite, desire, and orality. Asian American literature abounds in culinary metaphors and references, but few scholars have made sense of them in a meaningful way. Most literary critics perceive alimentary references as narrative strategies or part of the background; Xu takes food as the central site of cultural and political struggles waged in the seemingly private domain of desire in the lives of Asian Americans. *Eating Identities* is the first book to link food to a wide range of Asian American concerns such as race and sexuality. Unlike most sociological studies, which center on empirical analyses of the relationship between food and society, it focuses on how food practices influence psychological and ontological formations and thus contributes significantly to the growing field of food studies. For students of literature, this tantalizing work offers an illuminating lesson on how to read the multivalent meanings of food and eating in literary texts.

**Global Asian American Popular Cultures**-Shilpa Dave 2016-05-10 Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints—such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce—have opened up new ways of understanding how the categories of “Asian” and “Asian American” are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, *Global Asian American Popular Cultures* highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the mainstream and the margins of popular culture.

Okihiro, author of *Common Ground: Reimagining American History* "Here at last is a wide-ranging record of Chinese American experiences from the viewpoints of the players. *Chinese American Voices* is an impressive feat of scholarship, an indispensable

reference, and a compelling read."--Ruthanne Lum McCunn, author of *Thousand Pieces of Gold* and *The Moon Pearl* "This anthology offers a virtual "Gam Saan" (Gold Mountain) of original sources. The stories burst with telling and re-affirm a vision of men and women as actors in history, who made themselves as Chinese Americans as they helped to make America itself."--Ronald Takaki, author of *Strangers from a Different Shore: A History of Asian Americans* "This volume of sixty-two annotated documents, many translated from Chinese for the first time, is a boon to faculty and students interested in Chinese American history, Asian American history, U.S. immigration history, and race and ethnic relations. The life stories, in particular, are appealing for students, the reading public, and scholars alike as they hear the voices of individuals long misunderstood, denigrated, and silenced. All of us owe a debt of gratitude to the three editors for their dedicated labor of love."--Sucheng Chan, author of *Chinese American Transnationalism: The Flow of People, Resources, and Ideas between China and America during the Exclusion Era* "This is a superb collection."--Roger Daniels, author of *Guarding the Golden Door: American Immigration Policy and Immigrants since 1882*

**De-Whitening Intersectionality**-Dr. Shinsuke Eguchi 2020-07-24 *De-Whitening Intersectionality: Race, Intercultural Communication, and Politics* re-evaluates how the logic of color-blindness as whiteness is at play in the current scope of intersectional research on race, intercultural communication, and politics. Calling for a re-centering of difference by exploring the emergence and inception of intersectionality concepts, the coeditors and contributors distinguish between the uses of intersectionality that seem inclusive versus those that actually enact inclusion by demonstrating how to re-conceptualize intersectionality in ways that explicate, elucidate, and elaborate culture-specific and text-specific nuances of knowledge for women of color, queer/trans-people of color, and non-western people of color who have been marked as the Others. As a feminist of color tradition, intersectionality has been appropriated through increasing popularity in the discipline of communication, undermining efforts to critique power when researchers reduce the concept to a checklist of identity markers. This book underscores that in order to play well with and illustrate a nuanced understanding of intersectionality; scholars must be attentive to its origins and implications.

**Culturally Responsive Counseling with Asian American Men**-William Ming Liu 2011-01-19 Asian American men represent a complex group with distinct psychological and mental health concerns, yet the current counseling literature is lacking in resources for clinicians working with this population. The purpose of this text is to provide practitioners with a comprehensive overview of the current research and theory related to the important and unique issues that Asian American men experience. It offers clinicians culturally-responsive, practical counseling techniques and strategies to help inform them on how to work effectively with this group. Chapters are written by leading figures in the field and explore such topics as intergenerational conflict, racism, challenges associated with masculinity and fatherhood, sexual orientation identity development, substance abuse, and career counseling.
