Japanese Names Comprehensive Index By Characters And Readings

Japanese Names-P. G. O'Neil 2005-02 This comprehensive dictionary of 36,000 Japanese names is divided into two parts. The first is organized by stroke count, to facilitate the search for readings when the characters are known, and also alphabetically by romanized reading, to facilitate finding the characters for names whose pronunciations are known. Included are the names

China Bibliography-Harriet Thelma Zurndorfer 1995 This guide to bibliographical scholarship on China aims to summarize the contents of current reference publications on China from all disciplines and to show how they may be used in conjunction with the ‘classical tools of sinology’, e.g. "Tz’u-hai."

Japanese for Sinologists-Joshua A. Fogel 2017-07-11 "This textbook, the first of its kind, us aimed at helping students of Chinese history and culture acquire a great ability at reading Japanese. After an introduction, several charts, and guide to dictionaries, it presents eight chapters–each with a brief introduction, the Japanese text, and an extensive, layered vocabulary list. All chapters are taken from ordinary Japanese resources, but all of the authors are known to be extraordinary scholars. The final appendix provides full translations of all the essays. The principal audience is students who have completed two or three years of classroom Japanese language instruction and want to jump into China-related materials. Although best used in a classroom with a teacher, especially assiduous students may be able to use it on their own."--Provided by publisher.

Handbook for Asian Studies Specialists: A Guide to Research Materials and Collection Building Tools-Noriko Asato 2013-10-08 An indispensable tool for librarians who do reference or collection management, this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies (Chinese, Japanese, and Korean). • Represents the first work to include Chinese, Japanese, and Korean materials in one volume • Incorporates critical information on subscription-based and open-source electronic reference tools • Written by noted leading experts in Asian Studies librarianship • Supplies materials in English and vernacular Asian languages • Includes multilingual titles but provides references and citations in English • Comprises not only a bibliography, but a guide containing key tips on how to use many reference tools

Society and the State in Interwar Japan-Elise K. Tipton 2002-09-11 The social history of Japan between the First and Second World Wars is a neglected area of study. The contributors to this volume consider factors such as nationalism, class, gender and race. They also explore the ideas and activities of a number of new social and political groups, such as the urban white collar class (including middle class working women), socialists, industrial workers and emigrants. The book questions the myth of Japanese homogeneity, and gives an emphasis to the diversity, cross-currents and socio-political tensions that characterised the 1920s and 1930s.

Interpreting History in Sino-Japanese Relations-Caroline Rose 2005-08-04 The first book-length study to examine the re-writing of school textbooks by the Japanese Education Ministry in an attempt to play down atrocities in China during World War II. The famous textbook crisis in 1982 was at the centre of a diplomatic storm extending through the 1980s as Sino-Japanese relations were beset by a series of political controversies. This fascinating account of the period reveals that Chinese and Japanese policy-makers were more concerned with changes taking place in international and domestic politics than with adopting a correct view of history.

The Kenpeitai in Java and Sumatra-Barbara Gifford Shimer 2010-01

Guide to Reference in Genealogy and Biography-Mary K. Mannix 2014-12 An excellent starting point for both reference librarians and for library users seeking information about family history and the lives of others, this resource is drawn from the authoritative database of Guide to Reference, voted Best Professional Resource Database by Library Journal readers in 2012. Biographical resources have long been of interest to researchers and general readers, and this title directs readers to the best biographical sources for all regions of the world. For interest in the lives of those not
found in biographical resources, this title also serves as a guide to the most useful genealogical resources. Profiling more than 1400 print and electronic sources, this book helps connect librarians and researchers to the most relevant sources of information in genealogy and biography.

**A Law Enforcement Sourcebook of Asian Crime and Cultures**
*Tactics and Mindsets* - Douglas D. Daye 2017-12-14 Even in multicultural North America, few whites, blacks, or Hispanics have extensive experience or understanding of Asian culture. For experienced police officers, intelligence analysts, correctional officers, and prosecutors, the problems of cultural differences in behavior remain complex and problematic. This book addresses these specific law enforcement problems, and supplies law enforcement professionals with information and strategies for easier arrests, more accurate intelligence, more successful prosecutions, and fewer problems during incarceration.

**Dictionary of American Family Names** - Patrick Hanks 2003-05-08 Where did your surname come from? Do you know how many people in the United States share it? What does it tell you about your lineage? From the editor of the highly acclaimed Dictionary of Surnames comes the most extensive compilation of surnames in America. The result of 10 years of research and 30 consulting editors, this massive undertaking documents 70,000 surnames of Americans across the country. A reference source like no other, it surveys each surname giving its meaning, nationality, alternate spellings, common forenames associated with it, and the frequency of each surname and forename. The Dictionary of American Family Names is a fascinating journey throughout the multicultural United States, offering a detailed look at the meaning and frequency of surnames throughout the country. For students studying family genealogy, others interested in finding out more about their own lineage, or lexicographers, the Dictionary is an ideal place to begin research.

**Language and Literature** - Karl Heinrich Menges 1999

**Asia Major (1921-1975)** - Hartmut Walravens 1997

**Trade And Transformation In Korea, 1876-1945** - Dennis McNamara 2019-05-20 Exploring the interaction among system, state, and society, this book illuminates the social and economic history of late nineteenth- and early twentieth-century colonial Korea. Dennis McNamara argues that transformation within and trade abroad, led by rice exports, spurred Korea's shift from isolation to inclusion in a modern regional system. In hi

**Zen and Confucius in the Art of Swordsmanship** - Reinhard Kammer 2016-05-05 The sword has played an important role in the Japanese consciousness since ancient times. The earliest swords, made of bronze or stone, were clearly, by their design and form, used for ritualistic purposes rather than as weapons. Later, swords were associated only with the warrior class, and lack of physical strength and battle experience was compensated for by handling the sword in a way that was technically expert. Besides this sacred and artistic status, swordsmanship also acquired a philosophical reinforcement, which ultimately made it one of the Zen ‘ways’. Zen Buddhism related the correct practice of swordsmanship to exercises for attaining enlightenment and selfishness, while Confucianism, emphasizing the ethical meaning, equated it to service to the state. This classic text, first published in English in 1978, includes a history of the development and an interpretation of Japanese swordsmanship, now esteemed as an art and honored as a national heritage. It describes in detail the long, intensive and specialized training and etiquette involved, emphasizing and explaining the importance of both Zen and Confucian ideas and beliefs.

**Yasuo Ariizumi 2006 Kongress (Mainz, 2002).**
Buddhism in Taiwan - Charles Brewer Jones 1999-01-01 Buddhism in Taiwan is the first work in a Western language to examine the institutional and political history of Chinese Buddhism in Taiwan. Tracing Buddhism's development on the island from Qing times through the late 1980s, it seeks to shed light on the ways in which changing social circumstances have impacted Buddhist thought and practice. It looks in particular at a number of significant changes that modernization has brought: the decline in clerical ordinations, the increasing prominence of nuns within the monastic order, the enhanced role of the laity, alterations in the content of lay precepts, the abandonment of funerals as a major source of income, the monastic order's loss of special recognition from the government, and the founding of large, international organizations.

History of Soybeans and Soyfoods in Japan, and in Japanese Cookbooks and Restaurants outside Japan (701 CE to 2014) - William Shurtleff 2014-02-19 The world's most comprehensive, well documented, and well illustrated book on this subject, with 445 photographs and illustrations. Plus an extensive index.

Book of Jewish and Crypto-Jewish Surnames - Judith K. Jarvis 2018-05-10 From unlikely places like Scotland and the Appalachian Mountains to the Bible and archives of the Spanish Inquisition, this valuable resource published in 2018 is the first to cover the naming practices of Conversos, Marranos and secret Jews along with more familiar Central and Eastern European Jews. It includes Joseph Jacobs' classic work on Jewish Names, a chapter on Scottish clans and septs, thousands of Sephardic and Ashkenazic surnames from early colonial records and Rabbi Malcolm Stern's 445 Early American Jewish Families. Appendix A contains 400 surnames from the Greater London cemetery Adath Yisroel. Appendix B provides a combined name index to the indispensable When Scotland Was Jewish, Jews and Muslims in British Colonial America and The Early Jews and Muslims of England and Wales, all by Elizabeth Caldwell Hirschman and Donald N. Yates. It contains 276 pages and has an extensive index and bibliography. “Up-to-date and valuable research tool for genealogists and those interested in Jewish origins.” —Eran Elhaik, Assistant Professor, The University of Sheffield

A Bibliography on Writing and Written Language - Konrad Ehlich 2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years. No comprehensive bibliography on this subject has been published since Sattler's (1935) handbook. With a selection of some 27,500 titles it covers the most important literature in all scientific fields relating to writing. Emphasis has been placed on the interdisciplinary organization of the bibliography, creating many points of common interest for literacy experts, educationalists, psychologists, sociologists, linguists, cultural anthropologists, and historians. The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field. While necessarily selective, it also offers information on more specialized bibliographies. In addition, an overview of norms and standards concerning 'script and writing' will prove very useful for non-professional readers. It is, therefore, also of interest to the generally interested public as a reference work for the humanities.

日本の名前文化 - Herbert E. Plutschow 1995 This is the first comprehensive study in English of Japanese names - their history and evolution, and ontological implications. Its main purpose is to understand the development of the nomenclature in its religious (animistic) and socio-political contexts. We learn, for example, how belief in the animistic-symbolic property of names developed into extensive taboos and, in connection with these taboos, into the custom of revealing names in case of marriage or territorial surrender. Whereas private (religious) use of surnames was tolerated, commoners without public functions were prohibited from public use of surnames. In the Meiji period (1868-1912), on the other hand, the government enforced the universal registry of surnames to conform with its policy of universal conscription, education, taxation and the postal service. The book will be of particular interest to students of Japan and Japanese nomenclature. It will also appeal to the general reader drawn to learning more about Japan by looking at its history, religion and culture through the names of its people.

Artisans in Early Imperial China - Anthony J. Barbieri-Low 2021-10-22 Early China is best known for the dazzling material artifacts it has left behind. These terracotta figures, gilt-bronze lamps, and other material remnants of the Chinese past unearthed by archaeological excavations are often viewed without regard to the social context of their creation, yet they were made by individuals who contributed greatly to the foundations of early Chinese culture. With Artisans in Early Imperial China, Anthony Barbieri-Low combines historical, epigraphic, and archaeological analysis to refocus our gaze from the glittering objects and monuments of China onto the men and women who made them. Taking readers inside the private workshops, crowded marketplaces, and great palaces, temples, and tombs of early China, Barbieri-Low explores the lives and working conditions of artisans, meticulously documenting their role in early Chinese society and the economy. First published in 2007, winner of top prizes from the Association for Asian Studies, American Historical Association, College Art Association, and the International Convention of Asia Scholars, and now back in print, Artisans in Early Imperial China will appeal to anyone interested in Chinese history, as well as to scholars of comparative social history, labor history, and Asian art history.
Japan - Frank Joseph Shulman 1989

Between China and Japan - Joshua A. Fogel 2015-04-28 These essays and reviews by Joshua Fogel, written over the past 35 years, focus on the cultural and political interactions between China and Japan. The represent pioneering efforts to assess these two histories together.

The Oriental Economist - Tanzan Ishibashi 1972

The Journal of the Association of Teachers of Japanese - 1972

Monumenta Nipponica - 1992 Includes section "Reviews".

印籠大事典 - Edward Wrangham 1995 A guide to the Japanese artists whose signatures appear on the miniature Japanese medicine-cases called inro. The result of 35 years of study by the owner of the world's most comprehensive inro collections, this book contains 2704 entries with more than 2000 signature photographs.

A Popular Dictionary of Shinto - Brian Bocking 2005-09-30 A comprehensive glossary and reference work with more than a thousand entries on Shinto ranging from brief definitions and Japanese terms to short essays dealing with aspects of Shinto practice, belief and institutions from early times up to the present day.

The Publishers' Trade List Annual - 1990

Organic Chemists Compounds Desk Reference - P. H. Rhodes 1991-12-31 Information from many disparate sources is brought together to create a unique desktop guide to the principles and practice of organic chemistry.

Information from Japan - Shirley V. King 1985

Walford's Guide to Reference Material: Generalia, language and literature, the arts - Albert John Walford 1996 From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias, and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodicals, articles, microforms, online and
CD-ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories.
