Does the Woman Exist From Freuds Hysteric To Lacans Feminine

Does the Woman Exist? - Paul Verhaeghe 2013-04-16 This book describes how Freud attempted to chart hysteria, yet came to a standstill at the problem of woman and her desire, and of how Lacan continued along this road by creating new conceptual tools. The difficulties and upsets encountered by both men are examined. This lucid presentation of the dialectical process that carries Lacan through the evolution of Freud's thought offers profound insights into the place of the “feminine mystique” in our social fabric. Patiently and carefully, Verhaeghe applies the Lacanian grid to Freud's text and succeeds in explaining Lacan's formulations without merely recapitulating his theories. The reader is informed, along the way, not only of Lacan’s take on Freudian ideas, but also of the array of interpretations emerging from other trends in post-Freudian literature, including feminist revisionism.

A Desire for Women - Suzanne Juhasz 2003 This book explores women's desire for women as it is located in examples of twentieth-century British and American women's writing, including fiction, memoir, and poetry by such writers as Virginia Woolf, Vivian Gornick, Dorothy Allison, Mary Gordon, Toni Morrison, Marilyn Hacker, and Audre Lorde. Suzanne Juhasz discusses how literary writing functions to enact and negotiate a series of relationships between women: daughter-mother, mother-daughter, lesbian lover-lesbian lover, writer-reader, and reader-writer. She shows how writing is a component of interpersonal relationships and how relationships are central to the construction of personal and social identity. Uniquely weaving together psychoanalytic, feminist, queer, and literary theory as well as memoir to examine the value and meaning of relationships between women, Juhasz explores the writings of adult daughters, mothers, and lovers to consider how language both traces and shapes the contours of experience. She emphasizes the initial bond between mother and infant as the bedrock of identity formation, a process involving love, recognition, desire, and language, and shows how that relationship serves as source and model for all future loves. Juhasz's lucid prose unravels the meaningful yet overlooked intricacies of the relationships that inflect much of women's writing in the twentieth century.

Measuring Empowerment in Practice - Ruth Alsop 2005 “Alsop and Heinsohn present an analytic framework that can be used to measure and monitor empowerment processes and outcomes. The measuring empowerment framework, rooted in both conceptual discourse and measurement practice, illustrates how to gather data on empowerment and structure its analysis. The framework can be used to measure empowerment at both the intervention level and the country level, as a part of poverty or governance monitoring. The authors first provide a definition of empowerment and then explain how the concept can be reduced to measurable components. Empowerment is defined as a person's capacity to make effective choices--that is, the capacity to transform choices into desired actions and outcomes. The extent or degree to which a person is empowered is influenced by personal agency (the capacity to make purposive choice) and opportunity structure (the institutional context in which choice is made). Asset endowments are used as indicators of agency. These assets may be psychological, informational, organizational, material, social, financial, or human. Opportunity structure is measured by the presence and operation of formal and informal institutions, including the laws, regulatory frameworks, and norms governing behavior. Degrees of empowerment are measured by the existence of choice, the use of choice, and the achievement of choice. Following the conceptual discussion and the presentation of the analytic framework, the authors show how the measuring empowerment framework can be applied using examples from four development interventions. Each example discusses how the framework guided analysis and development of empowerment indicators. They also present a draft module for measuring empowerment at the country level. The module can be used alone or be integrated into country-level poverty or governance monitoring systems that seek to add an empowerment dimension to their analysis. This paper--a product of the Poverty Reduction Group, Poverty Reduction and Economic Management Network--is part of a larger effort in the network to conceptualize, operationalize, and measure empowerment”--Abstract.

Do Options Exist? - Maria Amparo Cruz-Saco 1999-03-15 This timely volume brings together specialists on the reform of social security systems to analyze the similarities and differences of those health care and pension reforms that have taken place since the early 1990s and suggests possible gains through recent or contemplated revisions to those systems.
Political Women—Michele Lockhart 2013-09-25 This collection examines the ways in which women have used political rhetoric and political discourse to provide leadership, or assert their right to leadership, at the national level. While over the years women have broken through traditional roles, they are still underrepresented in political leadership. In this text, scholars consider the various factors that continue to restrict political leadership opportunities for women as well as some of the ways in which individual women have strategically sought to enact political power and leadership for themselves. The contributors analyze various case studies of leadership positions at the national level, looking at women who have run, been nominated to run, or appointed to national positions. The interdisciplinary approach lends itself to: rhetoric; political rhetoric; political discourse; leadership studies; women's studies; gender issues; satire; pop culture.

The Sex Texts—L. Robert Arthur 2013-09-16 For all intent, virtually all accepted mainstream Catholic Christian tenets remain untouched for the past two millennia. It follows then that we take for evident truths for example, our views on the Creator and creation's sexuality, gender issues, and human relationship concerns may in fact be nothing but establishment dogmas gleaned from wrong interpretation or translation of the original text and intent of Jesus Christ and the Bible authors. Now, isn't the mere chance of that being true too scary? The Sex Texts: Sexuality, Gender, and Relationships in the Bible by L. Robert Arthur raises just that possibility, despite the strong likelihood of facing stiff criticism from many sectors, mostly of the established Catholic persuasion. Yet those inclined to know the true message of Jesus Christ and his closest disciples may well take heed to scrutinize, at the very least, what Robert is trying to point out in his work. The Sex Texts: Sexuality, Gender, and Relationships in the Bible promises to raise a storm, but the public debate it could engender may yet start a new direction for the rest of humanity.

Finding the Woman Who Didn't Exist—Melanie C. Hawthorne 2020-03 Gisèle d'Estoc was the pseudonym of a nineteenth-century French woman writer and, it turns out, artist who, among other things, was accused of being a bomb-planting anarchist, the cross-dressing lover of writer Guy de Maupassant, and the fighter of at least one duel with another woman, inspiring Bayard's famous painting on the subject. The true identity of this enigmatic woman remained unknown and was even considered fictional until recently, when Melanie C. Hawthorne resurrected d'Estoc's discarded story from the annals of forgotten history. Finding the Woman Who Didn't Exist begins with the claim by expert literary historians of France on the eve of World War II that the woman then known only as Gisèle d'Estoc was merely a hoax. More than fifty years later, Hawthorne not only proves that she did exist but also uncovers details about her fascinating life and career, along the way adding to our understanding of nineteenth-century France, literary culture, and gender identity. Hawthorne explores the intriguing life of the real d'Estoc, explaining why others came to doubt the "experts" and following the threads of evidence that the latter overlooked. In focusing on how narratives are shaped for particular audiences at particular times, Hawthorne also tells "the story of the story," which reveals how the habits of thought fostered by the humanities continue to matter beyond the halls of academe.

WOMEN THINK LOVE DOESN'T EXIST—Quezzy The CEO Men. Let's be honest for a second. You love women, I love women, but we have these women thinking that love doesn't exist. Have you ever taken the time to listen to what women are really going through? What happens when thousands of women around the world keep complaining about the same basic things over and over? Women of all ages, races, nationalities, cultures, and skin tones are all upset about the same things. This cannot be a coincidence. Something is truly wrong with the way we as men conduct ourselves in relationships. This book contains just a few of the experiences from women that I have interviewed. My hope is that these interviews will give men a better idea of what we are doing to our beautiful women.

Sovereignty, Knowledge, Law—Panu Minkkinen 2009-05-22 Sovereignty, Knowledge, Law investigates the notion of sovereignty from three different, but related perspectives: as a legal question in relation to the sovereign state, as a political question in relation to sovereign power, and as a metaphysical question in relation to sovereign self-knowledge. The varied and interchangeable uses of legal sovereignty, political sovereignty and metaphysical sovereignty in contemporary debates have resulted in a situation where the word ‘sovereignty’ itself has become something of a non-concept. Panu Minkkinen shows here how these three perspectives have informed one another, by addressing their shared relationship to law, and to the ‘heterocephalous’ function of sovereignty; that is, the attempt to provide a single source and foundation for law, power, and self-knowledge. Through an effort to domesticate the intrinsically ‘heterocephalous’ nature of power, the juridical and jurisprudential aim has been to confine power within the closed vertical hierarchy of traditional legal thinking. Sovereignty, Knowledge, Law thus elaborates this heterocephaly, proposing new understandings of sovereignty, as well as of law and of legal scholarship.

Dancing with Iris—Ann Ferguson 2009-10-08 Iris Marion Young was a world-renowned feminist moral and political philosopher whose many books and articles spanned more than three decades. She explored issues of social justice and oppression theory, the phenomenology of women’s bodies, deliberative democracy and questions of terrorism, violence, international law and the role of the national security state. Her works have been of great interest to those both in the analytic and Continental philosophical tradition, and her roots range from critical theory (Habermas and Marcuse), and phenomenology (Beauvoir and Merleau Ponty) to poststructural psychoanalytic feminism (Kristeva and Ingaray). This anthology of writings aims to carry on the fruitful lines of thought she created and contains works by both well-known and younger authors who explore and engage critically with aspects of her work. The essays include personal remembrances as well as a last interview with Young about her work. The essays are organized into topic areas that are of interest to students in advanced undergraduate and graduate courses in ethics, feminist theory, and political philosophy.

Between Women and Generations—Drucilla Cornell 2016-04-30 This book defies easy categorization but will be one of the most original, thoughtful, and genuinely interesting books published next year. Before the author’s mother died, she asked her daughter, Drucilla, to write a book ‘that would bear witness to the dignity of her death [and one that] her bridge class would be able to understand.’ As if that wasn’t difficult enough, Drucilla’s mother, who had a degenerative disease, decided to end her life by ingesting a lethal cocktail of drugs. Drucilla was in the unenviable position of bearing witness to her mother’s act. Unsentimental yet poignant, candid and courageous, this is the book that Drucilla promised her mother she’d write. Unlike her earlier academically-oriented books, Between Women and Generations is an intensely personal narrative which interweaves the personal and political decisions Drucilla’s made throughout her life. She uses the personal as a springboard to talk about larger philosophical issues such as how one achieves dignity in life and in death, and the nature of intergenerational relationships between women. Drucilla speaks candidly of her relationship with her mother, about her decision to adopt a non-Western child, and about her commitment to UNITY, a cooperative of house cleaners in Long Island, New York. This book will resonate strongly with Western women.

The Theatre and Films of Jez Butterworth—David Ian Rabey 2015-02-26 Jez Butterworth is the most critically acclaimed and commercially successful new British dramatist of the 21st century: his acclaimed play Jerusalem has had extended runs in the West End and on Broadway. This book is the first to examine Butterworth’s writings for stage and film and to identify how and why his work appeals so widely and profoundly. It examines the way that he weaves suspenseful stories of eccentric outsiders, whose adventures echo widespread contemporary social anxieties, and involve surprising expressions of both violence and generosity. This book reveals how Butterworth unearths the strange forms of wildness and defiance lurking in the depths and at the edges of England: where unpredictable outbursts of humour highlight the intensity of life, and characters discover links between their haunting past and the uncertainties of the present, to create a meaningful future. Supplemented by essays from James D. Balestrieri and Elisabeth Angel-Perez, this is a clear and detailed source of reference for a new generation of theatre audiences, practitioners and directors who wish to explore the work of this seminal dramatist.

The motto of Coldbeans is "the only thing that changes here are baby diapers." The sheriff wants to be mayor and the Mayor wants to stay mayor. If he is a whole lot drunk than that skillet will not have an affect.

What a Woman Ought to Be and to Do - Stephanie J. Shaw 1996-05-15 Stephanie J. Shaw takes us into the inner world of American black professional women during the Jim Crow era. This is a story of struggle and empowerment, of the strength of a group of women who worked against daunting odds to improve the world for themselves and their people. Shaw's remarkable research into the lives of social workers, librarians, nurses, and teachers from the 1870s through the 1950s allows us to hear these women's voices for the first time. The women tell us, in their own words, about their families, their values, their expectations. We learn of the forces and factors that made them exceptional, and of the choices and commitments that made them leaders in their communities. What a Woman Ought to Be and to Do brings to life a world in which African-American families, communities, and schools worked to encourage the self-confidence, individual initiative, and social responsibility of girls. Shaw shows us how, in a society that denied black women full professional status, these girls embraced and in turn defined an ideal of "socially responsible individualism" that balanced private and public sphere responsibilities. A collective portrait of character shaped in the toughest circumstances, this book is more than a study of the socialization of these women as children and the organization of their work as adults. It is also a study of leadership—of how African American communities gave their daughters the power to succeed in and change a hostile world.

I EXIST IN ALL PLANES AT THE SAME TIME - Deaconess Floria Alexander-Reindorf 2011-04-25 THE TREE OF LIFE WHICH YOU WERE DEPRIVED OF IS THE WORD OF GOD, THE TEACHING OF GOD. If Adam and Eve had received these types of teachings when they were in the Garden of Eden, they would not have died. THE FRUIT OF LIFE IS THE WORD OF GOD. This is explained in John 15:1-6. THE TREE OF LIFE IS THE WORD OF GOD WHICH YOU MUST EAT. MAN SHOULD ENDEAVOR TO GAIN ETERNAL LIFE THROUGH THE WORD OF GOD. John 12:48-50. Do you know that my teachings will give you everlasting life? THE FRUIT OF LIFE IS NO OTHER THING THAN THE GOSPEL WHICH I GIVE YOU. EVERYTHING YOU NEED IS EMBEDDED IN THESE TEACHINGS. MY TEACHINGS HAVE TWELVE DIFFERENT TYPES OF FRUIT WHICH STAND FOR THE TWELVE POWERS OF MAN. (By—Leader Olumba Olumba Obu)

Beyond Gender—Paul Verhaeghe 2001 In this volume, Paul Verhaeghe’s lectures on the development of psychoanalytic theory between Freud and Lacan are reproduced as a written work of astonishing versatility, which stands at the vanguard of Lacanian studies. Beyond Gender examines Freud's discovery of the unconscious and Lacan's elaboration of this discovery as a gap in the subject between what (s)he knows and the real driving forces in the psyche. The implications of this gap are manifold, and their impact on areas of study and practice from gender theory to obsessive neurosis, trauma, hysteria, and dream interpretation are profound. It is Verhaeghe's contention that, far from being the bedrock of gender differentiation, castration masks another anxiety: anxiety over another original lack that is beyond gender. This book moves past the classic binary opposition between body and psyche, and challenges the reader to reexamine both the sexual relationship and the troublesome notion of gender identity. Paul Verhaeghe is one of the most brilliant of those few writers who can relate questions found in Freud and Lacan to the passions and suffering of everyday life. These essays present a variety of concepts, all of them at the heart of the psychoanalytic enterprise. He constructs a pathway whose staging posts are desire and the dream, the body and love. Here you will find described the fabric of human engagement, the real conditions under which men and women attempt to construct relations of sexual love. Bernard Burgoyne, professor at the Institute of Social Science Research, Middlesex University, London. This book finally sets the record straight. Psychoanalysis is not about gender, nor is it about sex. It is not even about the signifier. It is about the impossibility of bridging the gap between the body and the drive. Verhaeghe, with his usual, methodical, pedagogical, and refreshingly calm approach, uncovers for us the truths of Freuds discoveries and the unexpected clarity of Lacans theoretical formulation. Judith Feher Gurewich, director of Lacans Seminar, Harvard University

How to Do Things with Pornography—Nancy Bauer 2015-04-06 In Nancy Bauer’s view, most feminist philosophers are content to work within theoretical frameworks that are false to human beings' everyday experiences. Here she models a new way to write about pornography, women’s self-objectification, hook-up culture, and other contemporary phenomena, and in doing so she raises basic questions about philosophy.

The Left-Handed Woman—Peter Handke 1978-06-01 A young woman faces loneliness and alienation on a journey to find her own life outside of being a wife and mother in Nobel Prize-winning author Peter Handke’s The Left-Handed Woman. One evening, when Marianne and her husband, Bruno, are dining out together to celebrate his return from a business trip, Marianne listens to him speak and realizes suddenly yet finally that Bruno will leave her. Whether at that moment, or in years to come, she will be deserted. And instinctively Marianne knows she must fend for herself and her young son now, before that time comes. She sends Bruno away and settles down to a life alone, at first experiencing moments of panic, restlessly wandering in rooms grown stifling. The stillness of the house wears her down, and she starts taking long walks, or visiting with her close friend, Franziska. Gradually, what began as a selfish escape from the prospects of the future becomes in fact liberation. The environment she’d always hated—a no man’s land of identical houses, with all curtains drawn—recedes; her relationships with those dear to her become less threatening, less necessary; and Marianne finds a new pattern for her life and the strength to go on alone.

Essays on Woman—Edith Stein 1996 "With reason Edith Stein has been called 'the most significant German woman of this century'. Identity Politics in the Women's Movement—Barbara Ryan 2001-08-01 In recent years, identity has come to be seen as a process rather than a fact or deterministic force. Yet, recognizable identity traits continue to draw people together and provide them with a sense of empowering commonality. Although the plasticity afforded identity has freed up rigid definitions and guidelines for affiliation, some believe that nebulous demarcations of identity may deprive women of a solid position from which to effectively contest centers of power. Bringing together articles by well-known authors and theorists such as Audre Lourde, June Jordan, Daphne Patai, Barbara Smith, Marilyn Frye, Shane Phelan, Leila J. Rupp, Hazel Carby, and Adrienne Rich with lesser-known writers and scholars, this broad-based anthology ranges widely from personal narratives to empirical research. The book unpacks issues of race, class, gender, ethnicity, sexuality, disability, and age, contributing a mélange of sharp, lively perspectives to current debate. In a postmodern era of feminism, how do women come to identify, organize and mobilize themselves within a complex global network of relationships? Identity Politics in the Women's Movement offers critical examination of the inescapable role of identity in academic and activist feminism and the opportunities, challenges and conflicts identity politics pose.
